About Beast Cookie Company

In 2016, Beast Cookie Co. was created with a very clear mission to create a cookie that was not

only enjoyable to eat, but also had function. While the company's carefully sourced plant-based proteins gave its cookies the nutritional value it was looking for, the company didn't stop there. After lots of consideration, the creators added 180mg of caffeine from natural green tea extract and, once the first batch came out of the oven, the company's team knew they nailed it! It was at this moment that Beast Energy Cookies, the tastiest, most energizing cookies that the market has ever seen, and the world's first true, untamed energy cookies, were born!
