

AV-Comparatives releases Report of Latest Protection Test for 17 Popular Home User Security Programs

Leading antivirus test lab releases full test results covering four months of testing of the Real-World Protection Test in July-October 2022

INNSBRUCK, TYROL, AUSTRIA,
November 21, 2022 /

EINPresswire.com/ -- As part of its ongoing Consumer Main-Test Series, [AV-Comparatives](#) has released the results of its [July to October 2022 Real-World Protection Test](#) for consumer security solutions. 17 popular anti-malware programs were evaluated to assess their protection against Internet-borne threats.

AV-Comparatives Consumer Real-World Protection Test H2 2022

The [Real-World Protection Test](#) conducted by AV-Comparatives mimicks real-world conditions as experienced every day by users. The test accurately determined if each threat used was able to

“

The World Wide Web continues to be a risky place. With the aid of our test results, users can find a security solution that lets them surf the Internet more safely.”

Peter Stelzhammer, co-founder AV-Comparatives

make any changes to the test system. To ensure that security programs do not plague users with false alarms, AV-Comparatives put all the products through a false-positives test too. Programs with high levels of false alarms had their award levels reduced.

The products tested by AV-Comparatives were: Avast Free Antivirus, AVG Antivirus Free, Avira Prime, Bitdefender Internet Security, ESET Internet Security, G Data Total Security, K7 Total Security, Kaspersky Internet Security, Malwarebytes Premium, McAfee Total Protection, Microsoft Defender Antivirus, NortonLifeLock Norton 360

Deluxe, Panda Free Antivirus, TotalAV Antivirus Pro, Total Defense Essential Antivirus, Trend

Micro Internet Security, and VIPRE Advanced Security.

A total of 10 products reached the highest award level, ADVANCED+, in this Real-World Protection Test. These were (in alphabetical order): Avast, AVG, Avira, Bitdefender, G Data, K7, Kaspersky, Microsoft, McAfee, VIPRE.

Like all AV-Comparatives' public reports, this Real-World Protection Test report can be read or downloaded free of charge, and without registration, from the lab's website: <https://www.av-comparatives.org/tests/real-world-protection-test-july-october-2022/>

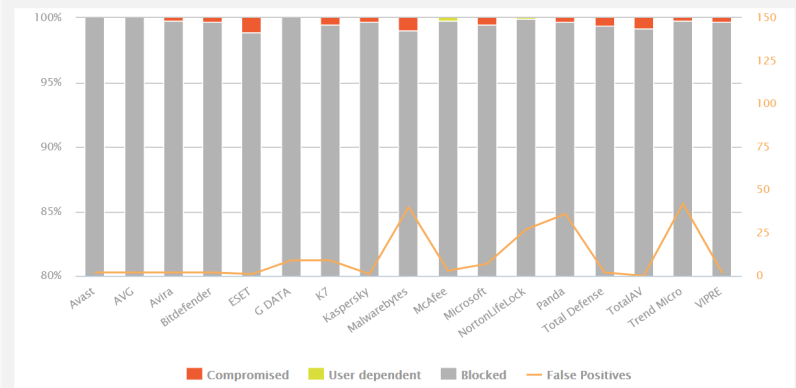

About AV-Comparatives

AV-Comparatives is an independent organisation offering systematic testing to examine the efficacy of security software products and mobile security solutions. Using one of the largest sample collection systems worldwide, it has created a real-world environment for truly accurate testing.

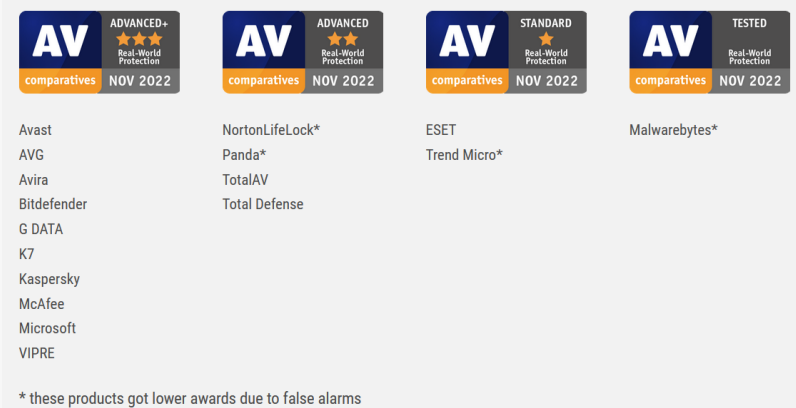

AV-Comparatives offers freely accessible av-test results to individuals, news organisations and scientific institutions. Certification by AV-Comparatives provides a globally recognised official seal of approval for software performance.
