Educational Travel also called as edu-tourism is a sub type of the travel and tourism sector. Educational tourism could be referred to as an approach for pursuing education, carrying out research activities and knowledge acquisition. This sector is acquiring popularity these days and is a fast growing sub-sector in the travel and tourism industry. As far as academics are concerned, this sector has vast scope and is changing the dynamics of the sector constantly; it is more of a perspective type of tourism. Educational Travel is also called by other names such as job development, career enhancement or self-actualisation experience. The idea is that apart from self-improvement, travel can be relaxation, learning can be more fun than ever and there is no age bar restricting people from learning by travelling (this does not include people who wish to travel for educational purposes but are unable to travel due to health problems).

Additionally, this report investigates into the top industry segments by type, applications, and regions, highlighting important aspects such as market size, share, trends, and key drivers with the aid of SWOT and PESTLE analysis. In addition, this research report provides insights into pricing strategies, business statistics, supply chain, and technological advancements over the forecast period, giving businesses a deeper understanding of the industry's complexities and opportunities.
