

# Lords Of Fortune Launches Three-Part Funding Strategy for 2026 Recovery of 'Greatest Of All Treasures'

*Investor, Sponsor, and Media funding strategies announced for 2026 recovery of RMS Republic's legendary multi-billion treasure.*

MIAMI, FL, UNITED STATES, September 30, 2025 /EINPresswire.com/ -- Lords Of Fortune has announced the release of its comprehensive three-part funding strategy—Investor, Sponsor, and Media—to finance the Summer 2026 recovery of the RMS Republic and her fabled cargo, hailed as the “Greatest Of All Treasures.”

The Republic, a luxury White Star Line steamship, was launched in 1903 and quickly became known as the “Millionaires’ Ship” for the elite clientele who sailed her. In January 1909, en route from New York to Europe, she collided with another vessel and sank off Nantucket. While all but six passengers were rescued, the Republic took with her to the Atlantic depths not only luxury cargo and passenger valuables, but also what contemporary press accounts described as “riches beyond most men’s wildest dreams.”

“

Our strategy ensures broad participation. Investors, sponsors, and media partners now have the opportunity to share in a once-in-a-lifetime recovery that will capture imaginations worldwide.”

*Capt. Martin Bayerle*

For more than a century, speculation has swirled around what exactly lay sealed within her specie and mail rooms. Research indicates the cargo may have included politically sensitive shipments—among them \$25 million in Russian gold intended for the Russian State Bank, U.S. Navy

payrolls, and other government-linked consignments. At 1909 valuations, this was already historic; at today’s gold prices, the recovery could exceed \$7 billion USD.

## Three-Part Funding Strategy

To bring this monumental effort to completion, Lords Of Fortune has structured a multi-channel strategy that ensures wide participation and strategic alignment:

Investor Funding – Now open through multiple channels:

Wefunder Crowdfunding Offering – For the first time, the general public can participate with as little as \$100, expanding access beyond traditional accredited channels.

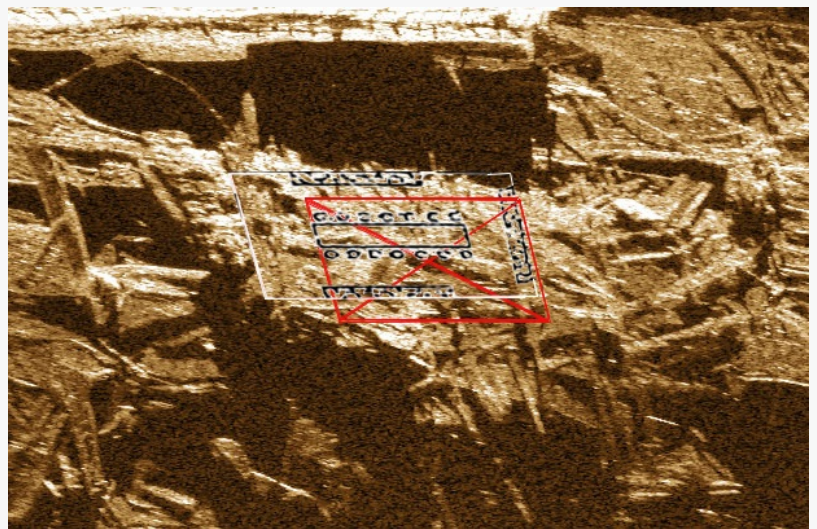

Convertible Note Series II(a) – Tailored for accredited investors, aligning risk, timing, and potential upside with a structured note.

Abundantia LP – A premier partnership vehicle designed for institutional investors and high-net-worth individuals, providing access to the project at scale.

Sponsorship Funding – Global brands will have the opportunity to align themselves with a historic and captivating story. Sponsorship packages benchmark against the world's most prestigious platforms—Olympic Games, Formula 1, and FIFA World Cup—offering unparalleled exposure, legacy association, and brand prestige.

Media Funding – With a proven global audience from the History Channel's 2016 series Billion Dollar Wreck—broadcast in over 90 countries to tens of millions—Lords Of Fortune will collaborate with media partners for documentaries, live coverage, syndication, and cinematic opportunities. This strategy ensures the story of the Republic's recovery reaches worldwide audiences in real time.

“Our strategy ensures broad participation, from everyday Wefunder investors to accredited and institutional partners, along with sponsors and media organizations,” said Captain Martin Bayerle, Managing Member of Lords Of Fortune. “Together, we will share in a once-in-a-lifetime recovery that will capture imaginations worldwide. The RMS Republic is more than a

X Marks the Spot

2026 Salvage Kit, 500 ft Salvage Barge, 1400 Ton Crane, 1000 Ton Grab - The Right Tools

shipwreck—it is a story of history, finance, and perseverance waiting to be completed.”

## A Legacy in the Making

Lords Of Fortune’s announcement follows over four decades of research, litigation victories establishing sole ownership of the Republic and her contents, and significant advances in subsea recovery technology. Court orders have confirmed title to the wreck, as well as barred all future claims, positioning Lords Of Fortune with exclusive rights to what is anticipated to be the most valuable treasure recovery in maritime history.

The recovery operation is scheduled to begin in Summer 2026, with an Exploratory Phase lasting approximately 2–3 weeks, followed immediately by the Recovery Phase, contingent upon confirmed gold findings.

The company has staged a comprehensive investor-facing ecosystem:

[Investor Deck](#) outlining financial structures and ROI potential.

[Sponsorship Deck](#) designed to highlight global brand opportunities.

[Media Deck](#) prepared for television, film, and streaming industry partners.

All are accessible through [LordsOfFortune.com](https://LordsOfFortune.com)

.

## Why It Matters

The RMS Republic project is more than a recovery; it is a moment in history where treasure, technology, and storytelling converge. In an era when global audiences hunger for authentic adventure and tangible history, the recovery of the Republic’s cargo offers a narrative of scale, intrigue, and human determination unmatched in modern exploration.

For everyday investors, it is now possible to participate via Wefunder. For accredited and institutional investors, structured offerings and partnerships provide significant potential returns. For sponsors, it is a brand alignment with discovery and legacy. And for media partners, it is the chance to bring a global audience into the heart of one of history’s most enduring mysteries.
