The North America region accounted for the highest share of 39.9% in the global voice communication equipment market in 2022 and is expected to continue this growth trajectory during the forecast period. The increasing demand for seamless and effective communication from various businesses in this region is expected to be the main growth driver of the market in North America region by 2032.

The IP phones sub-segment accounted for the highest voice communication equipment market share of 32.9% in 2022 and is expected to grow at a high CAGR during the forecast period. Compared to traditional phone systems, IP phones offer lower long-distance and international call charges. This advantage of IP phones is predicted to boost the sub-segment's growth by 2032.

The IT & telecom sub-segment accounted for the highest market share in 2022 and is expected to grow at a stunning CAGR of 6.9% in the forecast period. Growing demand for cloud-based voice communication devices, such as softphones and IP phones, from IT and telecom industries due to various advantages like greater flexibility, scalability, and cost-effectiveness is predicted to boost the sub-segment's growth by 2032.

The private branch exchange sub-segment accounted for the highest voice communication equipment market share of 35.1% in 2022 and is expected to grow at a stunning CAGR in the forecast period. In the past few years, private branch exchange has updated the business calling process, which is a significant improvement over the previous generation voice communication equipment. This has led to a growth in demand for PBX which is predicted to boost the sub-segment's growth by 2032.
