

Frames by Michihiro Matsuo Wins Silver in A' Architecture Awards

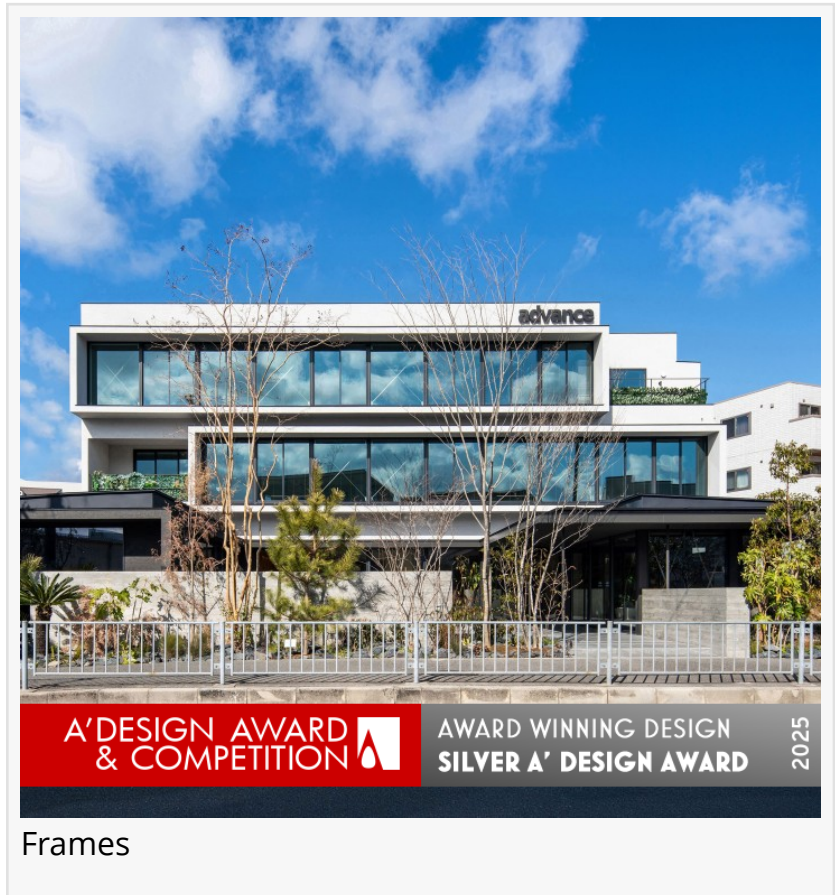

Michihiro Matsuo's Innovative Office Design Recognized with Prestigious A' Architecture, Building and Structure Design Award

COMO, CO, ITALY, October 23, 2025 /EINPresswire.com/ -- The A' [Design Award](#), a highly respected and well-recognized award in the field of [architecture](#) design, has announced Frames by [Michihiro Matsuo](#) as a Silver Winner in the Architecture, Building and Structure Design category. This prestigious recognition highlights the exceptional design and innovation of Frames within the competitive Architecture industry.

Frames stands out as a groundbreaking office design that seamlessly blends organic aesthetics with functionality, aligning with the growing demand for nature-oriented workspaces. Its innovative use of window frames and strategic placement of greenery creates a harmonious balance between openness and privacy, offering practical benefits for both employees and the surrounding community.

The distinctive façade of Frames features a floating upper window frame complemented by a horizontal canopy on the first floor, creating a visually striking exterior. Inside, the thoughtful integration of plants disperses the gaze of passersby while enhancing the sense of openness within the office space. As a wooden structure, Frames demonstrates a commitment to low-carbon construction, while its seismic design ensures both an open aesthetic and safety.

This recognition from the A' Architecture, Building and Structure Design Award serves as a testament to Michihiro Matsuo's dedication to pushing the boundaries of architectural design. It

is expected to inspire future projects that prioritize the harmonious integration of nature, functionality, and aesthetics, setting new standards within the Architecture industry.

About Michihiro Matsuo

Michihiro Matsuo, an architect based in Japan, primarily designs villas and houses that embody the relationship between housing, society, and design. With a focus on design quality, earthquake resistance, and functionality, Matsuo challenges the possibilities of wooden structures in homes and large buildings, aiming to contribute to a low-carbon society in a country prone to earthquakes.

About Silver A' Design Award

The Silver A' Design Award recognizes notable designs that demonstrate excellence and innovation in their respective fields. Recipients of this award are acknowledged for their significant contributions to advancing industry standards and design practices. The rigorous selection process, involving blind peer review by an expert jury panel, ensures that Silver A' Design Award winners represent highly functional and aesthetically pleasing designs that make a positive impact on everyday life.

About A' Design Award

The A' Design Award is an international, juried design competition organized across all industries since 2008. Its mission is to recognize and promote superior products and projects that advance and benefit society, ultimately contributing to a better world through the power of good design. By celebrating remarkable achievements and showcasing pioneering designs on a global stage, the A' Design Award inspires designers and brands to develop innovative solutions that positively impact the global community.
