

Campbell Clinic Podcast Delivers Expert Insights on Orthopaedics, Education, and Community Impact

MEMPHIS, TN, UNITED STATES, October 23, 2025 /EINPresswire.com/ --

Orthopaedic industry leader Campbell Clinic's podcast, [The Now and Future of Orthopaedics](#), has the mission of educating, inspiring, and informing listeners through in-depth conversations with physicians, therapists, foundation leaders, and more. With new episodes released regularly, the podcast offers a behind-the-scenes look at how Campbell Clinic is advancing patient care, medical research, and global outreach.

In the latest episode, "[Why Fusions Aren't Always the Answer: Exploring Safer Spine Solutions](#)," Dr. Chad Champion discusses effective, less invasive alternatives to spinal fusion and the evolving role of endoscopic spine surgery.

Dr. Champion, one of a small group of high-volume endoscopic spine surgeons nationwide, explains to listeners how minimally invasive techniques and robotics are reshaping patient care. He also highlights how training and surgical philosophy impact outcomes.

Other key topics addressed in this episode include:

Clarifying the meaning and limitations of "minimally invasive" spine procedures;
Applications of robotic assistance in spinal care;

Orthopaedic industry leader Campbell Clinic's podcast, The Now and Future of Orthopaedics, has the mission of educating, inspiring, and informing listeners through in-depth conversations with physicians, therapists, foundation leaders, and more.

Surgical strategies that preserve motion and reduce trauma; and Neck surgery options and how the next generation of surgeons is being trained.

This latest installment adds to the podcast's growing catalog of episodes that dig into orthopaedics from multiple angles. A few recent episodes include:

"From Memphis to the World: Campbell Clinic's Legacy of Healing and Teaching" with Jenny Turner Koltzow — a look at the Clinic's mission, foundation work, and educational reach.

"Revolutionizing Recovery: Cutting-Edge Techniques in Physical Therapy" with Carie McPhail — discussing innovations like wearables, shockwave therapy, and how strong patient-therapist relationships lead to better outcomes.

"Move Better, Heal Faster" with Dr. Joshua Brandon — exploring the role of movement and exercise in managing conditions like arthritis and osteoporosis, and the evolving future of sports medicine.

"A Deep Dive Into Orthobiologics" with Dr. Kristina Quirolgico — covering what orthobiologics are, their promise, and real patient stories using these treatments.

"Faith, Family, and Orthopaedics: The Campbell Clinic Legacy" with CEO Daniel Shumate — exploring organizational identity, culture, and the Clinic's international presence.
