

Fame Tattoos Offers Scalp Micropigmentation Services

Hialeah-based Fame Tattoos provides scalp micropigmentation as a non-surgical option for baldness, thinning hair, and certain scalp scars.

HIALEAH, FL, UNITED STATES, May 1, 2026 /EINPresswire.com/ -- [Fame Tattoos](#), an award-winning tattoo studio headquartered in Hialeah, Florida, offers [scalp micropigmentation services](#) for clients seeking a non-

surgical option for baldness, thinning hair, and certain scalp scars. The procedure adds pigmentation to the scalp to create the look of shaved or very short hair and is completed over several sessions using layered shades to build a natural-looking result.

Relevant details from the service information include:

- Pigmentation is added to the scalp to create the appearance of short hair.
- Treatments are completed over several sessions.
- Different shades are layered to create a 3D look of real hair.
- The service is intended for men experiencing baldness, thinning hair, or scalp scars.

According to company-provided information, the service is designed as an alternative for individuals who want to address hair loss without hair implant surgery. Fame Tattoos states that lighter pigmentation is typically applied first, followed by slightly darker shades in later treatments, with the darkest treatment completed last.

“Scalp micropigmentation creates the appearance of natural hair follicles without surgery,” said Mr. Omar Gonzalez, spokesperson for Fame Tattoos. “The treatment is performed over several sessions, and the layering of different shades helps build depth for a natural-looking hairline.”

Fame Tattoos began as a private tattoo studio in 2012 and opened its flagship Hialeah location in 2016. The company serves clients in Hialeah, Florida, and provides services that include tattoos, tattoo removal, piercings, permanent makeup, microblading, and scalp micropigmentation.
