

# Network with senior decision makers from an array of companies involved in the latest global Floating LNG projects

*Floating LNG will assess LNG market dynamics and economics, technology innovations, case studies plus project finance and risks associated with this industry.*

LONDON, UNITED KINGDOM, December 16, 2013 /EINPresswire.com/ -- SMI's 2nd annual [Floating LNG](#) conference, taking place on 17th and 18th February 2014 in London, will focus on the challenges involving construction and technology, LNG market dynamics, new business opportunities and how to

exploit them to their full potential. The two-day [conference programme](#) will also feature senior decision makers from leading FLNG innovators including INPEX, United LNG, Saipem, Pangea LNG and Excelebrate Energy among others sharing valuable insight on current and emerging projects from across the globe.

[Key presentations](#) at SMI's 2nd annual Floating LNG conference include:

- Pioneering technology for floating LNG industry  
Dinar Indriana, Senior Project Communication Coordinator, INPEX
- The FLNG project at Main Pass Energy Hub  
Christopher Caudill, Director, United LNG
- LNG Offloading: The Evolution towards Tandem Offloading  
Benjamin Mauries, Floaters Technologies Development Manager, Saipem
- How to develop small scale FLNG projects  
Rene van Vliet, Chief Project and Technology Officer, Pangea LNG
- Floating Regasification - Market Update and Future Trends  
Edward Scott, Chief Operating Officer, Excelebrate Energy
