

New York Home Automation Provider Says Commercial Businesses Can Benefit From Its Products and Services As Well.

According to Hy Haddad, president and founder of HDH Intelligent Technologies, his company provides audio and visual systems that can benefit business owners.

NEW YORK, NY, UNITED STATES, January 29, 2014 /EINPresswire.com/ -- When it comes to choosing the right products and systems that will make our lives easier and more comfortable, Hy Haddad, president and founder of HDH Intelligent Technologies (<http://www.hdhtech.com>), is the guy to talk to. His more than three decades of work in the home audio industry has made him an expert in the field. However, he says that the products and services that his company offers aren't limited to residential applications.

"At HDH Tech, we carry a complete line of audio, visual, and conferencing products," says Haddad, "and, of course, our expert staff can design and install systems tailored to the unique needs of just about any type of company imaginable."

According to Haddad, the commercial products and services offered by HDH Tech range from modest projection systems for meeting rooms and background music systems for retail shops and restaurants, to complete system solutions that integrate sound, video, and more for commercial and conference centers, as well as for auditoriums and theaters.

"Our incredible range of available products and services can benefit a business of any size," says Haddad, "and our experience in providing audio and visual systems to the commercial market makes us a popular choice among business owners."

One of the most popular commercial services offered by HDH Tech, according to Haddad, is the installation of [video surveillance systems](#).

“The use of surveillance systems to monitor and record activity in and around your business environment is an unfortunate, but very necessary reality,” explains Haddad. “At HDH Technologies, we offer top-of-the-line video surveillance systems meant to heighten security at the business you worked so hard to create.”

Whether a company is looking to expand its capabilities with video conferencing technologies, or offer a better experience to its customers through a professionally-installed [audio system](#), Haddad says that HDH Tech is the company to contact.

“Our expert audio, visual and automation experts are always on hand to help your business meet its unique needs,” says Haddad.

HDH Intelligent Technologies, based in Brooklyn, NY, is a provider and custom installer of home electronic and integration technologies. HDH serves both commercial and residential customers by providing [lighting control systems](#), security & CCTV, audio/video, telephone systems, home theaters, and HVAC control & automation. Serving the entire tri-state area, no job is too big or too small for the HDH staff, from hanging a plasma display on a wall, to installing a full automation and control system. For more information, visit the HDH website (<http://www.hdhtech.com>) or call, 1-888-449-4233.
