

HerAnswer.com Announces Addition of OHT Peptide 3 Anti-Aging Formulation to Product Line

HerAnswer.com has expanded its line of skincare products with the addition of newly formulated OHT Peptide 3 anti-aging cream.

ROSEVILLE, CA, USA, May 5, 2014 /EINPresswire.com/ -- HerAnswer.com, one of the top distributors of healthcare supplements for women, has recently expanded its line of skincare products with the addition of OHT's newly formulated, improved and more powerful Peptide 3 anti-aging formula.

"HerAnswer couldn't be happier about offering our customers what is the most beneficial and restorative skincare product on the market," said Tim Rose, owner of HerAnswer. "We continue to do everything we can to be the best source for top quality healthcare products for both women and men. Adding OHT Peptide 3 to our lineup was a natural fit for us," added Rose.

Rose also noted that the science behind peptides makes them a natural fit for skincare products. "Peptides play a vital role in the skin's healing process." Peptides are protein molecules that are found naturally in the body. They send out signals when damaged skin needs to be repaired. The three patented peptides used in OHT's new formula are Hexanoyl Dipeptide-3, which speeds up cell renewal for fresher more vibrant skin, Trifluoracetyl Tripeptide-2, which reduces signs of aging, and Palmitoyl Tripeptide-38, which fills in wrinkles on the forehead and crow's feet.

OHT Peptide 3 goes to work on many levels because it is targeted, multi-layered dermal therapy that diminishes fine lines and reduces crow's feet and wrinkles. It contains three patented peptides that target both the upper and lower layers of the skin and reduces sagging while improving the firmness and elasticity of the skin.

HerAnswer.com has been a leading distributor of personal care products for over 12 years. Their extensive line of products includes Can-C eye drops, skincare products, Kegel exercise machines, Uriflow, D-Mannose for UTIs, and many other personal care products. "We pride ourselves on providing great prices with outstanding customer service. We do not have gimmicks. The price we show is the price our customers pay," said Rose in commenting on HerAnswer.com's customer service policy.
