

Premier Auto Service Center Restructures Southwest Florida Locations

Premier Auto's Two Locations Combining to Better Serve Customers

CAPE CORAL, FL, USA, July 31, 2014 /EINPresswire.com/ -- Premier Auto Service Center of Southwest Florida is a [full service auto repair shop](#). In the past, this organization has served Florida residents in two separate facilities—one in Fort Myers and one in Cape Coral. These two locations have built a strong client base and the employees have dedicated themselves to the satisfaction of these customers.

Effective at the end of the day on July 31st, these two locations will combine to form one. Premier Auto is doing this as a way of better serving all clients. By eliminating redundant equipment and the additional location, it will allow Premier Auto to provide excellent service to every customer that walks in the door.

The Fort Myers location will close up shop and move operations to the Cape Coral facility. This large, modern shop has all the equipment necessary to provide Southwest Florida car owners the very best service available. A move like this is not easy, but the result will be a very positive thing for current customers as well as others in the community who wish to avail the [services of Premier Auto](#).

One worry that many may have is that a trusted mechanic or customer service manager will not be available to help assist with car problems. However, this is not the case. The same smiling faces are still working for Premier Auto, just all at one convenient, modern location that is designed to serve car owners from all around Southwest Florida.

About Premier Auto Service Center

Premier Auto Service Center is a family owned and operated auto repair facility. We focus on providing honest and reliable automotive repairs on most vehicles and light trucks, import and domestic. You can count on our courteous, professional staff to answer your questions and help you make an informed decision about your vehicle that will save you time and money.
