Description

Wiseguyreports.Com Adds "Intelligent Virtual Assistant (IVA) -Market Demand, Growth, Opportunities and Analysis of Top Key Player Forecast To 2022" To Its Research Database

According to Stratistics MRC, the Global Intelligent Virtual Assistant (IVA) market is expected to grow from \$660.46 million in 2015 to reach \$4,200.98 million by 2022 with a CAGR of 30.3%. Increasing innovative technological developments, growing adoption of IVA in mobile applications and websites are the major factors driving the market growth. Furthermore, growing internet penetration in emerging countries, growth of e- commerce business, and raising demand for regional language assistance are some of other factors propelling the market growth.

By application, Banking, Financial Services, and Insurance (BFSI) segment is expected to be a fastest growing segment during the forecast period. This growth is owed to increasing financial activities through smartphones to access financial services, increasing adoption of IVA by financial institutions to give better customer service. North America commands the intelligent virtual assistant market with a higher CAGR due to availability of developed infrastructure, and higher acceptance of new technologies. Asia Pacific is expected to witness fastest growth, over the forecast period.
