

Storm Group Gutters Announces New Gutter Guard Systems

Storm Group Gutters (www.stormgroupGutters.com) of Minneapolis MN introduces Xtreme Gutter Guard covers for gutter systems.

MINNEAPOLIS, MN, UNITED STATES, September 8, 2017 /EINPresswire.com/ -- Introducing Xtreme Gutter Guard covers for gutter systems now being offered by the company [Storm Group Gutters](http://StormGroupGutters.com). They have decided after doing their due diligence that these [gutter guards](#) are the go-to solution for their customer base. The fine framework of the micro mesh system for these gutter guards tops all other systems available on the market. The micro mesh screen is stainless steel, and while it prevents even accumulation of small debris, water continues to flow through freely.

gutter guards Minneapolis

Company spokesman, Dmitry Lipinskiy, stated that "Xtreme Gutter Guards indeed are the best [gutter covers Minneapolis](#) has to offer, and customers of Storm Group Gutters expect nothing less than the best. These new gutter guards are the perfect addition to help keep gutters clean for years and to prevent water damage."

Lipinskiy continued, "Imagine a micro mesh gutter guard working to take on 60 gallons of water each and every minute. That's incredible and a very valuable asset for a home in Minnesota, where extreme weather conditions are common. At the same time, all the smaller bits of debris are kept out as mentioned. There is no more ladder climbing in the springtime or the fall for Minnesota residents if they opt for these new gutter guards. You can bank on the fact that these guards are a wise and safe investment that help gutter systems work much more efficiently."

Storm Group Gutters in Minneapolis brings you the best in both guards and covers for your gutter system. Keep your gutters clean and free of leaves and other debris. Allow the water to flow freely with these durable guards and again, no more climbing!
