

Rising Healthcare Expenditure is Impelling the Growth of Fundus Cameras Market over the Forecast Period 2016-2024

Global fundus camera market is anticipated to flourish at a CAGR of 6.5% over the forecast period. Further, the factors propelling the growth of fundus camera

BROOKLYN, NEW YORK, UNITED STATES, October 11, 2017 /EINPresswire.com/ -- "[Fundus Cameras Market: Global Demand Analysis & Opportunity Outlook 2024](#)"

The [global fundus cameras Market](#) is segmented into product type such as mydriatic fundus cameras, non-mydriatic fundus cameras, hybrid fundus cameras and ROP fundus cameras. Further, non-mydriatic fundus cameras has been the largest segment in 2016 and it is expected to garner at a CAGR of 7.1% during the forecast period. Further, hybrid fundus camera accounted for the highest CAGR during the forecast period. Likely, rising demand for advance healthcare products is projected to foster the growth of fundus camera market.

Global fundus cameras market is expected to register a 6.5% CAGR over the forecast period. Moreover, the global fundus cameras market is anticipated to reach USD 685 million globally by 2024. The market is expected to expand on the back of favorable government policies and increasing retinal disease.

The hospitals segment by end user is anticipated to post a substantial CAGR by 2024. Moreover, hospitals segment is anticipated to account for the largest share in the revenue across the globe. In addition to this, North America and Europe are the prominent regional market of fundus cameras in 2016. Furthermore, growing awareness among the population regarding treating diabetic retinopathy at an early stage is expected to boost the growth of fundus cameras market in these regions.

Favorable government initiatives

Increasing investment by government to develop healthcare infrastructure and rising GDP figures of developing and developed nations such as U.S., China and others are believed to boost the demand for fundus cameras. Moreover, implementation of fundus camera in various hospitals and ophthalmology clinics for the treatment of eye related diseases is predicted to intensify the demand for fundus cameras. Likely, these factors are anticipated to flourish the growth of fundus camera market over the forecast period.
