

# Railway Construction APAC Market 2017- By Develop Strategies Based on the Latest Regulatory Events

---

*Railway Construction APAC Market 2017 - Opportunity, Driving Trends and deep study.*

PUNE, INDIA, October 17, 2017 /EINPresswire.com/ -- Synopsis

The report provides detailed market analysis, information and insights based on over 1,200 CIC projects in 13 countries. The report provides detailed metrics on each country's road and railway construction projects, as tracked by the CIC, split by type, start date and value.

## Summary

This report details the investment in large-scale road and railway projects in the region, based on the projects tracked by Construction Intelligence Center (CIC). The projects are at various stages of development, from announced to execution, and are in 4 categories: railways, roads, trams and metros and tunnels and bridges. A total of 13 countries in the region are covered, and the combined value of projects tracked in these countries stood at US\$2.86 trillion as of June 2015. The average value of projects across the 1,266 projects studied is US\$2.26 billion. The highest value project tracked in this report is the US\$200 billion China-Russia-Canada-America High Speed Rail Road.
