

## Global Agricultural Enzymes Market is Projected to Reach US\$533.790 million by 2022

Market Research Report on Global Agricultural Enzymes Market

RAIPUR, INDIA, November 22, 2017 /EINPresswire.com/ --

Report Sellers has added a new market research report "<u>Agricultural Enzymes</u> <u>Market- Forecasts</u> from 2017 to 2022" to its offerings. The report is an in-depth market study providing accurate market insights including the latest trends, forecast, competitive insights, etc.

## According to the report, Agricultural

<u>enzymes market</u> is projected to grow at a CAGR of 9.22% over the projected period to reach US\$533.790 million by 2022, from US\$343.426 million in 2017. Factors driving the market growth are growing preference towards organic food, along with the increasing awareness regarding the hazards associated with chemicals used in agricultural fields. Burgeoning demand for renewable sources of energy such as bio-fuels is also boosting the demand for agriculture enzymes. Regulations enforced by the governments across the different regions towards reducing the use chemicals have compelled the farmers to use enzymes for enhancing crop yields.

Competitive Insights: The global market for agricultural enzymes is highly competitive with the presence of several big and small players. However, the need to invest in continuous R&D enhances the position of large players. Innovation and strategic partnerships are the some of the key strategies being adopted by players in order to be competitive. Moreover, vendors are also focusing on strengthening their value chain to enhance efficiency. The major players discussed in the report include Aries Agro, AgriLife, StollerUSA, Novozymes, Agrinos, Bioworks, Greenmax, Syngenta, and Camson Bio Technologies.
