

# Air Particle Monitor System 2018 Global Market Expected to Grow at CAGR of 7.46% and Forecast to 2022

*Wiseguyreports.Com Publish New Market Report On -"Air Particle Monitor System Market - Global Analysis, Size, Share, Trends, Growth and Forecast 2018 - 2023"*

PUNE, INDIA, February 14, 2018 /EINPresswire.com/ --

## [Air Particle Monitor System Market 2018](#)

An air particle monitoring system is used to measure certain parameters within the surrounding atmosphere. These parameters include particles, such as smoke, oil, dust, carbon, ash, and others. Air particle monitor systems are used for the continuous recording as well as for spot recording of the surrounding air. Spot recording is done during manufacturing processes when specific conditions, such as the required temperature and humidity, are to be met. Continuous recording is done when the data is required for research or any other analysis.

The analysts forecast the global air particle monitor system market to grow at a CAGR of 7.46% during the period 2017-2021.

Covered in this report

The report covers the present scenario and the growth prospects of the global air particle monitor system market for 2017-2021. To calculate the market size, the report considers the demand for air particle monitor systems.

The market is divided into the following segments based on geography:

- Americas
- APAC
- EMEA

Request a Sample Report @ <https://www.wiseguyreports.com/sample-request/1930723-global-air-particle-monitor-system-market-2017-2021>

The report, Global Air Particle Monitor System Market 2017-2021, has been prepared based on an in-depth market analysis with inputs from industry experts. The report covers the market landscape and its growth prospects over the coming years. The report also includes a discussion of the key vendors operating in this market.

Key vendors

- Ecotech
- Aeroqual
- Beckman Coulter
- Thermo Fisher Scientific
- TSI

#### Other prominent vendors

- 3M
- Emerson
- Honeywell International
- HORIBA
- Particle Measuring Systems
- Pegasor
- RION
- Siemens
- Testo (India)
- Vaisala

#### Market driver

- Increasing construction of green buildings
- For a full, detailed list, view our report

#### Market challenge

- High cost of maintenance
- For a full, detailed list, view our report

#### Market trend

- Growing demand for cleanrooms
- For a full, detailed list, view our report

#### Key questions answered in this report

- What will the market size be in 2021 and what will the growth rate be?
- What are the key market trends?
- What is driving this market?
- What are the challenges to market growth?
- Who are the key vendors in this market space?

#### Table of Contents –Analysis of Key Points

PART 01: Executive summary

PART 02: Scope of the report

PART 03: Research Methodology

PART 04: Introduction

- Market outline

PART 05: Market landscape

- Market overview
- Market size and forecast
- Five forces analysis

PART 06: Market segmentation by application

- Market overview
- Global air particle monitor system market by indoor application
- Global air particle monitor system market by outdoor application

PART 07: Market segmentation by end-user

- Market Overview
- Global air particle monitor system market by government sector
- Global air particle monitor system market by commercial and residential sector
- Global air particle monitor system market by energy and pharmaceutical sector

PART 08: Geographical segmentation

- Market Overview
- Air particle monitor system market in Americas
- Air particle monitor system market in EMEA
- Global air particle monitor system market in APAC

PART 09: Decision framework

PART 10: Drivers and challenges

- Market drivers
- Market challenges

PART 11: Market trends

- Growing demand for cleanrooms
- Technological advances

PART 12: Vendor landscape

- Competitive Scenario
- Other prominent vendors

PART 13: Key vendor analysis

- Ecotech
- Aeroqual
- Beckman Coulter
- Thermo Fisher Scientific
- TSI
