

Global Joint Reconstruction Market Research and Forecast 2017-2022

Global Joint Reconstruction Market, Size, Share, Market Intelligence, Company Profiles, Market Trends, Strategy, Analysis, Forecast 2017-2022

INDORE, INDIA, February 16, 2018 /EINPresswire.com/ -- Orion Market Research (OMR) recently published a market research report on the Global Joint Reconstruction market. According to OMR analysis, the Global Joint Reconstruction Market is expected to grow impressively at a CAGR of 5.2% during the forecast period (2017-2022). The market is segmented on the basis of technique, type, biomaterials, synthetic joints and geography. The report provides detailed and insightful chapters which includes market overview, analyst insights, strategic recommendations, market determinants, key company analysis, company profiling, market segmentation, geographical analysis and predictive analysis of the market.

Full report of joint reconstruction market is available on <https://www.omrglobal.com/industry-reports/joint-reconstruction-market/>

Joint reconstruction is defined as medical procedure, in which injured or dysfunctional joint or tissue is substituted by an artificial prosthesis. Artificial prostheses include materials such as, comprising plastics, metals, and ceramics. The general types of joint replacement procedures include, digit replacement, ankle replacement, hip replacement, elbow replacement, knee replacement, shoulder replacement and elbow replacement.

Joint reconstruction, particularly the hip and knee market segment, comprised of knee reconstruction and hip reconstruction devices. The knee reconstruction devices market is leading in terms of revenue. However, the hip reconstruction devices market is expected to witness a stronger growth rate. Advancement in implant materials that resist wear and tear and a decrease in failure rates are encouraging young patients to opt for early surgical interventions. The emergence of new procedures such as hip resurfacing and partial knee replacement and greater penetration of existing technologies are also contributing to market growth in this segment. Furthermore, medical tourism is gaining popularity due to high-quality medical care and lower costs in countries, such as India, China and Thailand. The dominant players in the joint reconstruction (hip and knee devices) market include Zimmer Biomet, DePuy, Stryker, Smith & Nephew, and Biomet.

North America is estimated to be the dominating region in the global market. The growth of North American joint reconstruction market is driven by the United States. The U.S. accounts for the major shares in the joint reconstruction devices market owing to the presence of large pool of geriatric population. Asia Pacific is estimated to be the fastest growing region during the forecast period owing to rising disposable income and increasing incidence and prevalence of arthritis. According to an

estimate by Global Health and Ageing report by WHO, 27% of the Japanese and 14% of the Chinese population will be above 65 years of age by 2020.
