

# Kansas Corporate Whistleblower Center Urges a Physician in Kansas to Call Them About What Might Be Significant Rewards If They Have Proof a Healthcare Company is Bribing Physicians for Referrals

WASHINGTON, DC, USA, March 8, 2018 /EINPresswire.com/ -- The Kansas Corporate Whistleblower Center is urging a medical doctor in Kansas with proof any type of healthcare company is bribing physicians for referrals to call them anytime at 866-714-6466 for a confidential conversation about the federal whistleblower reward program. Recently the Department of Justice announced a \$29.6-million-dollar settlement involving two medical practice groups and a hospital system involved in a referral kickback scheme. The allegations revolved around kickbacks for patient referrals. In this example the scheme involved a hospital system admitting patients rather than seeing them on an outpatient basis. In this instance the whistleblowers (two medical doctors) will receive \$6.2 million dollars for their information.

According to the Department of Justice, "On average, Medicare pays at least three times as much for an inpatient admission as it does for outpatient care."

“

Come to us first, tell us what type of information you have, and if we think it's sufficient, we will help you with a focus on you getting rewarded.”

Why sit on a potentially winning lotto ticket without ever knowing what it might have been worth?"

Simple rules for a whistleblower from the Kansas Corporate Whistleblower Center: Do not go to the government first if you are a potential whistleblower with substantial proof of wrongdoing. The Kansas Corporate Whistleblower Center says, "Major whistleblowers frequently go to the government thinking they will help. It's a huge mistake. Do not go to the news media with your whistleblower information. Public revelation of a whistleblower's information could destroy any prospect for a reward. Do not try to force a company/employer or individual to come clean about significant Medicare fraud, overbilling the federal government for services never rendered, multi-million-dollar state or federal tax evasion, or a Kansas based company falsely claiming to be a minority owned business to get preferential treatment on federal or state projects. Come to us first, tell us what type of information you have, and if we think it's sufficient, we will help you with a focus on you getting rewarded."

Unlike any group in the US the Corporate Whistleblower Center can assist a potential whistleblower with packaging or building out their information to potentially increase the reward potential. They will also provide the whistleblower with access to some of the most skilled whistleblower attorneys in the nation.
