

# XTI Aircraft Company to File with SEC to Increase Share Price

*Price to remain at \$1.00 until SEC filing...  
Action follows funding for flying prototype  
and 60 orders for airplane*

DENVER, CO, USA, March 19, 2018  
/EINPresswire.com/ -- [XTI Aircraft Company](#) (XTI) announced today it is preparing to file papers with the U.S. Securities and Exchange Commission to increase the price of its shares from \$1.00 by at least 50%. The share price will remain at \$1.00 for a period of weeks until XTI finishes preparing its audited financials. Thereafter, the increase will be reflected in XTI's online equity crowdfunding program, [www.startengine.com/xti](#), and in XTI's \$25 million private placement financing for accredited investors.

“Until the time we submit the filing to the SEC,” said Robert LaBelle, XTI's CEO, “XTI will continue to sell its shares for \$1.00 on StartEngine.com and for \$1.00 to accredited investors. So right now is likely to be the last chance for people to buy shares in XTI at the lowest price possible.”

“We're going to fly our first prototype later this year,” LaBelle continued, “we've received 60 orders for the airplane, and we project much higher sales and revenues for the company. All this translates into reduced risk, a higher return for investors, an increase in the company's valuation, and higher stock value. We're filing with the SEC because of this increased valuation.”

High Speed Point to Point Transportation

“Our offering on the StartEngine platform has provided a rare opportunity for hundreds of unaccredited and accredited investors to own a piece of the future of flight,” said Mr. LaBelle. “The [TriFan 600](#) vertical takeoff airplane will transform air travel. We thank all of our investors as well as StartEngine for making this possible.”

The TriFan aircraft is a major breakthrough in aviation and air travel. The six-seat TriFan 600 will have the speed, range and comfort of a luxury business aircraft and the ability to take off and land vertically, like a helicopter. It will travel at over 300 miles an hour, with a range of 1,200 miles. Using three ducted fans, the TriFan lifts off vertically. Its two wing fans then rotate forward for a seamless transition to cruise speed and its initial climb. It will reach 30,000 feet in just ten minutes and cruise to the destination as a highly efficient business aircraft.

Following XTI's exhibits at the Paris Air Show in June, the annual National Business Aviation Association's convention in Las Vegas in October, and its exhibit at the Ft. Lauderdale International Boat Show in November, XTI announced that it had booked 60 orders for the TriFan 600 under the company's pre-sales program. "The market continues to recognize the value proposition of our unique and revolutionary airplane and its patented technology," said LaBelle. "Vertical takeoff combined with long-range, the speed and comfort of a business aircraft, and our quieter and cleaner state-of-the-art hybrid-electric propulsion system."

XTI launched a formal stock offering in 2016 under SEC Regulation A+, which remains open to all unaccredited and accredited investors around the globe. Shares in XTI may be purchased at [www.startengine.com/startup/xti](http://www.startengine.com/startup/xti) providing a unique opportunity for the general public to invest in an aerospace company with a game-changing product, a world-class leadership team, and significant growth potential.

Simultaneously with the equity crowdfunding financing, accredited investors may participate in XTI's \$25 million Series B round. Accredited investors seeking more information should contact Mr. LaBelle at [rlabelle@xtiaircraft.com](mailto:rlabelle@xtiaircraft.com) (571) 216-1594.

#### ABOUT XTI AIRCRAFT COMPANY

XTI Aircraft Company is a privately owned aviation business based near Denver, founded in 2012. XTI is guided by a leadership team with decades of experience, a deep well of expertise, and success bringing new aircraft to market. XTI is founded on a culture of customer-focused problem solving to meet the evolving needs of modern travelers.

For information and updates about XTI Aircraft Company and the TriFan 600, visit [www.xtiaircraft.com](http://www.xtiaircraft.com). To invest, go to [www.startengine.com/startup/xti](http://www.startengine.com/startup/xti), or accredited investors may contact Mr. LaBelle at [rlabelle@xtiaircraft.com](mailto:rlabelle@xtiaircraft.com) (571) 216-1594. For information on reserving a priority position for the TriFan under the Company's pre-sales program, contact Mr. LaBelle.
