

# Boiler Water Treatment Market 2018 Global Share, Trend, Segmentation and Forecast to 2021

---

PUNE, INDIA, March 21, 2018 /EINPresswire.com/ --

Global Boiler Water Treatment Market

WiseGuyReports.com Presents "Global Boiler Water Treatment Market 2016-2020" New Document to its Studies Database. The Report Contain 55 Pages With Detailed Analysis.

## Description

Boiler water treatment is a method that focuses on removing or chemically modifying substances that can potentially damage boilers. Numerous treatment methods are used at different sites to avoid corrosion and scale formation. External treatment of raw water supply intended for use within a boiler focuses on removing impurities from the water before it reaches the boiler. Internal treatment within the boiler focuses on limiting the tendency of water to corrode the boiler and maintaining the impurities in forms that are least likely to affect operations before being removed from the boiler in boiler blowdown.

The analysts forecast the global boiler water treatment market to grow at a CAGR of 3.13% during the period 2016-2020.

## Covered in this report

The report covers the present scenario and the growth prospects of the global boiler water treatment market for 2016-2020. To calculate the market size, the report enlists certain key estimates that we have considered for arriving at the market trends and certain exclusions that helped demarcate the market contours.

The market is divided into the following segments based on geography:

- Americas
- APAC
- EMEA

The Global Boiler Water Treatment Market 2016-2020, has been prepared based on an in-depth market analysis with inputs from industry experts. The report covers the market landscape and its growth prospects over the coming years. The report also includes a discussion of the key vendors operating in this market.

Key vendors

- ChemTreat
- GE Power
- Lenntech
- Nalco
- Veolia Water Technologies

Other prominent vendors

- AkzoNobel
- B&V Group (SUEZ)
- BASF
- Chem-Aqua
- Clarity Water Technologies
- Dew Speciality Chemical
- Garratt-Callahan
- Kurita Water Industries

Market driver

- Growth in refinery constructions across Asia and the Middle East.
- For a full, detailed list, view our report

Market challenge

- Overcapacity of refineries in developed countries.
- For a full, detailed list, view our report

Market trend

- National oil companies keen to set up highly complex refineries.
- For a full, detailed list, view our report

Key questions answered in this report

- What will the market size be in 2020 and what will the growth rate be?
- What are the key market trends?
- What is driving this market?

- What are the challenges to market growth?
- Who are the key vendors in this market space?
- What are the market opportunities and threats faced by the key vendors?
- What are the strengths and weaknesses of the key vendors?

## Table of Contents -Major Key Points

### PART 01: Executive summary

- Highlights

### PART 02: Scope of the report

- Market overview
- Top-vendor offerings

### PART 03: Market research methodology

- Research methodology
- Economic indicators

### PART 04: Introduction

- Key market highlights

### PART 05: Market landscape

- Market overview
- Market size and forecast
- Five forces analysis

### PART 06: Market segmentation by end-user

- Global boiler water treatment market by end-user
- Global boiler water treatment market in chemicals industry
- Global boiler water treatment market in power industry
- Global boiler water treatment market in food and beverage processing industry
- Global boiler water treatment market in refining and petrochemicals industry
- Global boiler water treatment market in metals industry
- Global boiler water treatment market in paper industry
- Global boiler water treatment market in textile industry

#### PART 07: Geographical segmentation

- Global boiler water treatment market by geography
- Boiler water treatment market in APAC
- Boiler water treatment market in EMEA
- Boiler water treatment market in the Americas

#### PART 08: Market drivers

- Rise in electricity demand
- Growth in refinery constructions across Asia and the Middle East
- Need to reduce downtime and maintenance costs

#### PART 09: Impact of drivers

#### PART 10: Market challenges

- Overcapacity of refineries in developed countries
- Impact of environmental concerns
- Slowdown in Chinese metal industry

#### PART 11: Impact of drivers and challenges

#### PART 12: Market trends

- Volatility in textile industry
- National oil companies keen to set up highly complex refineries
- Use of diagnostic tools for preventive maintenance of boilers

#### PART 13: Vendor landscape

- Competitive landscape
- Other prominent vendors

#### PART 14: Key vendor analysis

- ChemTreat
- GE Power
- Lenntech
- Nalco
- Veolia Water Technologies
