PUNE, INDIA, March 23, 2018

/EINPresswire.com/ --

WiseGuyReports.com Presents "Global (North America, Europe and Asia-Pacific, South America, Middle East and Africa) Food Dryer Market 2017 Forecast to 2022" New Document to its Studies Database

Food Dryer is defined as a machine of heat under controlled conditions, to remove the water present in foods by evaporation to yield solid products. It differs from evaporation, which yields concentrated liquid products. The main purpose of drying is to extend the shelf-life of foods by reducing their in-water activity. Micro-organisms which cause food spoilage and decay and many of the enzymes which promote undesired changes in the chemical composition of the food are unable to grow, multiply or function in the absence of sufficient water
