

# Glomerulonephritis Syndrome Market Segmentation Detailed Study with Forecast during H1 2017-2022

PUNE, MAHARASHTRA, INDIA, April 3, 2018 /EINPresswire.com/ --

Glomerulonephritis

Overview

Glomerulonephritis is also known as glomerular nephritis (GN) or glomerular disease. It is a disease of the kidney, characterized by inflammation of the glomeruli. Causes of glomerulonephritis include

Streptococcal infection of the throat

known as strep throat, immune diseases, such as lupus, Type 1 diabetes and type 2 diabetes and viruses, such as HIV, hepatitis B virus, and hepatitis C virus. Factors that increase chances of getting glomerulonephritis include family history of glomerulonephritis, the presence of a known cause of glomerulonephritis and high blood pressure.

Glomerulonephritis Industry Major Outlook

The Pharmaceutical and Healthcare latest pipeline guide Glomerulonephritis – Pipeline Review, H1 2017, provides comprehensive information on the therapeutics under development for Glomerulonephritis (Genito Urinary System And Sex Hormones), complete with analysis by stage of development, drug target, mechanism of action (MoA), route of administration (RoA) and molecule type. The guide covers the descriptive pharmacological action of the therapeutics, its complete research and development history and latest news and press releases.

The Glomerulonephritis (Genito Urinary System And Sex Hormones) pipeline guide also reviews of key players involved in therapeutic development for Glomerulonephritis and features dormant and discontinued projects. The guide covers therapeutics under Development by Companies /Universities /Institutes, the molecules developed by Companies in Phase III, Phase II, Phase I, Preclinical and Discovery stages are 2, 8, 2, 14 and 1 respectively. Similarly, the Universities portfolio in Preclinical stages comprises 2 molecules, respectively.

Glomerulonephritis (Genito Urinary System And Sex Hormones) pipeline guide helps in identifying and tracking emerging players in the market and their portfolios, enhances decision

making capabilities and helps to create effective counter strategies to gain competitive advantage. Additionally, various dynamic tracking processes ensure that the most recent developments are captured on a real time basis.

## Scope

- The pipeline guide provides a snapshot of the global therapeutic landscape of Glomerulonephritis (Genito Urinary System And Sex Hormones).
- The pipeline guide reviews pipeline therapeutics for Glomerulonephritis (Genito Urinary System And Sex Hormones) by companies and universities/research institutes based on information derived from company and industry-specific sources.
- The pipeline guide covers pipeline products based on several stages of development ranging from pre-registration till discovery and undisclosed stages.
- The pipeline guide features descriptive drug profiles for the pipeline products which comprise, product description, descriptive licensing and collaboration details, R&D brief, MoA & other developmental activities.
- The pipeline guide reviews key companies involved in Glomerulonephritis (Genito Urinary System And Sex Hormones) therapeutics and enlists all their major and minor projects.

## Reasons to buy

- Procure strategically important competitor information, analysis, and insights to formulate effective R&D strategies.
- Recognize emerging players with potentially strong product portfolio and create effective counter-strategies to gain competitive advantage.
- Find and recognize significant and varied types of therapeutics under development for Glomerulonephritis (Genito Urinary System And Sex Hormones).
- Classify potential new clients or partners in the target demographic.
- Develop tactical initiatives by understanding the focus areas of leading companies.
