

Achieve Professional-Level Cooking Results with WiFi-Connected Surfite Sous Vide Cooker, Available Now on Amazon.

GenHigh Tech announces that Surfite Sous Vide Cooker, extremely affordable and compact sous vide culinary immersion circulator, is now available on Amazon.

SANTA MONICA, CA, USA, January 9, 2019 /EINPresswire.com/ -- Sous vide cooking has become one of the most celebrated ways of preparing food not only in commercial restaurants but also in the comfort of many households. It is a process of slow-cooking vacuum sealed food with a water bath set to a specific temperature. The latest Surfite Sous Vide from GenHigh is equipped with WiFi, allowing consumers to control their cooker remotely, and follow the countdown to check if the water is hot and the food is ready.

With Surfite, sous vide is becoming affordable for broader audiences, so that most anyone can effectively bring a sous vide science and cooking technique home. Preparing dishes with Surfite is very simple: set the cooker's time and temperature, season and seal your food, cook it the way you like and enjoy meals that are perfectly prepared every time.

Unlike traditional sous vide cookers available on the market, Surfite Sous Vide is compliant with IPX7, which means the device is protected from immersion in water with a depth of up to 1 meter (3.3 ft). Also, the cooker can be easily cleaned thanks to its removable bottom part that can be rinsed or cleaned with dish soap.

Surfite Sous Vide pairs with the Smart Life app, which is free and available for both Apple and Android users. The app connects seamlessly with the Surfite Sous Vide and guides home cooks

Surfite Sous Vide Cooker enables you to cook your favorite foods to perfection and enjoy fine dining at home.

Surfite Sous Vide pairs with the Smart Life app, which is free and available for both Apple and Android users.

with easy-to-follow recipes, and various tips to create restaurant-quality dishes like a pro.

The SurfIt Sous Vide is available currently on Amazon in two versions: [SurfIt Sous Vide Cooker WiFi](#) and [SurfIt Sous Vide Cooker Standard](#).
