

3 presentations not be missed at the Future Armoured Vehicles Weapon Systems Conference 2019

SMi Reports: French DGA, Netherlands TNO and Lockheed Martin to exclusively present at the Future Armoured Vehicles Weapons Systems Conference in June

LONDON, UNITED KINGDOM, May 15, 2019 /EINPresswire.com/ -- With three weeks to go, SMi Group has announced three presentations not to be missed at the [Future Armoured Vehicles Weapon Systems Conference](#) taking place on 5th-6th June at the Cophorne Tara Hotel, London, UK.

This year, the conference will include focused and high-level discussions featuring technical managers and project engineers from both military and industry. Delegates can expect:

- Most nations technical briefings with insights into firepower of the future from DSTL – UK MoD.
- A key focus on main battle tank weapon systems, anti-tank guided missile integration, cased telescoped ammunition, and beyond-line-of-sight firepower.
- Updates and exclusive technical briefings on next generation weapon systems within key French and Dutch programmes including the JAGUAR.

Now in its fourth year, [Future Armoured Vehicles Weapons Systems](#) provides the ideal platform for a high-level meeting between key military personnel involved in munition and armament systems for armoured combat vehicles, and leaders from the most forward-thinking NATO-aligned military nations.

With this in mind, here are [three presentations not to miss](#) at the conference:

1. French DGA will present A Technical Assessment of JAGUAR Integrated Weapon Systems Capabilities

- DTAS cannon and ammunition handling system, reducing signature and increasing firepower
- Greater fire control and target acquisition for effectiveness across urban and open environments
- Integrating missile launch capabilities for greater range and anti-tank capabilities
- Ensuring effective armour across weapon systems for enhanced survivability

The poster features the SMi logo in the top right corner. The main text reads 'FUTURE ARMOURED VEHICLES WEAPON SYSTEMS' in large, bold, white letters. Below this, the dates and location are given as '5th-6th June 2019 | London, UK' in a green font. The background of the poster is a close-up photograph of a metallic, cylindrical weapon component. At the bottom of the poster, the website 'www.fav-ws.com' is displayed in white text on a black background. Below the poster, the text 'FAVWS 2019 Conference' is written in a smaller, black font.

2. Netherlands TNO will present Research and Development for Greater Beyond Line of Sight Firepower Capabilities

- An S&T perspective on the development of new technology of greater beyond-line of sight firepower capabilities
- Achieving greater range and accuracy in indirect fire
- Testing and evaluating beyond-line of sight weapon systems
- Challenges in integrating indirect fire systems onto armoured platforms

3. Lockheed Martin will present Evolution or Revolution? The Future of Battlefield Lethality

- Game-changing technologies in Armoured Vehicle evolution since 1939
- Developing a teaming approach:
 - Mounted-Dismounted Teaming
 - Direct-Indirect fires Teaming
 - Manned-Unmanned Teaming
- Is 'lighter and faster' a realistic approach?
- A way forward
