

# Global Spur Gears Market Drivers, Trends and Opportunities 2019

---

*WiseGuyReports have announced the addition of a new report titled "2019 Global and Regional Spur Gears Market Research Report Forecast 2025".*

PUNE , MAHARASHTRA, INDIA, September 11, 2019 /EINPresswire.com/ -- Report Description:

Spur gears or straight-cut gears are the simplest type of gear. They consist of a cylinder or disk with teeth projecting radially. Though the teeth are not straight-sided (but usually of special form to achieve a constant drive ratio, mainly involute but less commonly cycloidal), the edge of each tooth is straight and aligned parallel to the axis of rotation. These gears mesh together correctly only if fitted to parallel shafts. No axial thrust is created by the tooth loads. Spur gears are excellent at moderate speeds but tend to be noisy at high speeds.

Asia Pacific region is estimated to dominate the Spur Gears market in the forecast period. The market in Asia Pacific is expected to hold the largest share and is forecast to grow at the fastest rate during the forecasted period.
