Key Players

The Multi-Function Printer market report contains a comprehensive study of the competitive scenario of the Multi-Function Printer market and the existing trends that are forecasted to disrupt the market. It recognizes dynamic players of the market, counting both the primary and developing players. The report covers the companies in the market share review to provide a more comprehensive overview of the significant market players.

A Multi-Function Printer (MFD) is an all-in-one printer that accompanies the functionality of a printer, copier, scanner and/or faxes into one machine. This office machine generally performs a variety of functions that would otherwise be normally carried out by detached peripheral devices. This kind of printers is a common choice for budget-minded businesses that want especially to consolidate assets and reduce costs. The global multi-function printer market was USD 26.30 billion in 2018 and is estimated to reach USD 33.78 billion by 2025 at a CAGR of 3.64% during the forecast period.

Growth by Region

North America region holds the largest market share followed by Europe and the Asia Pacific regions owing to the increase in communication technology, increasing demand for simplified consumer electronics and need for a well-managed documentation system. Mainly, Canada and the US, in the North-America region have a strong technical infrastructure which allows proper implementation and intensification of advanced technologies. While Latin America and Africa regions expect to have a sluggish growth in comparison with other regions globally due to less advancement of technologies.

Drivers vs Constraints

The global multi-function printer market is mainly driven by its capability to perform multitudinous functions such as printing, scanning and faxing. Also, due to its high reliability and versatility as well as ease of use and its compact size, these multi-function printers are also used in offices and homes. This is also one factor owing to which the demand for multi-function printer is expected to rise during the forecast period and is one of the major drivers for the growth in the market globally. However, running a multi-function printer could normally be expensive and the power required to run the printer and its necessary maintenance could get very costly at times. These factors are hindering the growth of the global multi-function printer market globally.
