

Enegitech Introduces a New Range of Replacement Battery Tools Along with Tools Accessories

Enegitech offers a wide range of high-quality tools and replacement batteries at an affordable price without compromising with the quality.

CITY OF INDUSTRY, CALIFORNIA, USA, October 13, 2019 /EINPresswire.com/ -- [Enegitech](http://Enegitech.com), a manufacturer of high-quality professional tools, batteries, and accessories, is proud to introduce the new Replacement tool batteries for the power tools top manufacturers companies like Makita, DeWalt, Black & Decker, Craftsman, Ryobi, Worx and Lincoln along with few essential lighting accessories.

When it comes to power tools we imagine the power we need to get things done, Enegitech is a brand which made his own path and turn to be a recognized brand in the past few years. Currently, Enegitech is serving more than 100+ products, our every product set a new benchmark in terms of performance and execute last long. The brand works for the customers and the brand aims to offer premium and high-quality products to users.

Enegitech ensures to manufacture high-quality batteries that will power ideas and creativity until they become a reality. The wide range of collection of items in their online store shows how far they have gone to ensure that customers have access to revolutionary tools and power sources.

Enegitech also runs a VIP club where customers will enjoy huge discounts, half-price discounts, gifts, rewards, and free products.

Enegitech announcements included the following:

The new 18V LED batteries are part of Enegitech expanding 18V Lithium-Ion series, which offers 100+ tools and is the world's largest cordless tool line-up powered by 18V Lithium-Ion slide-style batteries. Makita 18V Lithium-Ion batteries have the fastest charge times in their categories, so they spend more time working and less time sitting on the charger.

Enegitech replacement lithium-Ion batteries charge faster and work longer than standard lithium-ion batteries, giving users unmatched performance and productivity to take on the most demanding applications. Makita batteries have category-leading charge times: the 18V 2.0Ah reaches a full charge in only 25 minutes; 18V 3.0Ah in only 30 minutes; 18V 4.0Ah in only 40 minutes; and the 18V 5.0Ah in only 45 minutes.

Enegitech CR2 batteries

The replacement batteries provide a raw power to your power tools like drill, craftsman, impact driver or any other power tools you use. These replacement batteries and battery chargers are made with high-quality materials along with proper quality test before being shipped. The Craftsman replacement battery from Enegitech offers sufficient power in replacement batteries which help your power tools to perform like a beast which as a result it performs tasks efficiently that's why our technologies are far superior to the rest of the brands. When it comes to pricing Enegitech offers the battery at a reasonable price tag.

12V replacement batteries
It also offers a wide range of replacement batteries for your power tools which are essential for daily needs. Whether if you want to lose your car tire screw, the [12V Lincoln battery replacement](#) is compatible with the original manufacturer Lincoln 1201. The batteries are designed to protect against some uncertain incidents like over-temperature protection, over-voltage protection, and it holds the charge for gaining a long-time performance. These batteries for power tools provide stable power to your power tools like Impact Wrench, Impact Driver, etc.

The Enegitech replacement batteries come along with 18V with a capacity of 3000mAh, which is capable to perform every task brilliantly. It is suitable for Dewalt DC9091 series cordless tools, which is 100% compatible with original manufacturer equipments and chargers, and a high capacity battery performs for longer running time. Enegitech never compromises with the quality and safety features built-in and ability to give protection against incorrect voltage, short circuit, internal overheating.
