Cable Connectors are mainly used for the purpose of connectivity, mainly for transferring data using signal transmission and also for power supply usage for various electronic peripherals in different types of industries. Different types of cables and connectors such as HDMI, DVI, Fiber and VGA ensure to meet the needs with its potential to consign high-bandwidth and low signal loss data streams. The global cable connector market was USD 58.24 billion in 2018 and is estimated to reach USD 80.65 billion by 2025 growing at a CAGR of 4.76% during the forecast period.

#### Growth by Region

Asia Pacific holds the largest market share and dominates the global cable connector market due to the rising demand of high-speed cables and connectors, growth in automation as well as growing demand for smartphones and tablets in the region. Meanwhile, the region is expected to retain its dominance in the conjecture timeframe. APAC region is trailed by a strong competitor Europe, holding the second spot with its high demand and early reception of marine links and connectors. The North American market is one of the fastest growing regions and strongest contender in terms of global cable connector market. LAMEA region is also anticipated to be one of the lucrative markets, mainly due to the market contribution by the middle-eastern region.
