

# Leather Chemicals Market 2019 Global Trends, Share, Growth, Analysis, Opportunities and Forecast To 2026

---

PUNE, MAHARASHTRA, INDIA, October 18, 2019 /EINPresswire.com/ -- Summary:

A new market study, titled "Discover [Global Leather Chemicals Market](#) Upcoming Trends, Growth Drivers and Challenges" has been featured on WiseGuyReports.

## Introduction

### Global Leather Chemicals Market

The global leather chemicals market hit a major mark in the year 2017, with the market being valued at \$6.52 billion. The industry is marked by the consumption of leather and leather products. Leather goes through an intensive chemical treatment to make it durable and gives it an enriching look. The rise in the adoption of leather products has forced manufacturers to come up with innovative products. This, in turn, has helped the leather chemicals industry grow by leap and bound.

The leather-based products find their application in several products. From shoes to car seat covers, the industry finds its application in every major industry. The rapid globalization, coupled with the rise in disposable income, has helped the industry grow at an astounding rate. On the other hand, leather chemicals are used as biocides and surfactants, which in turn has given a huge push to the industry. Chemical companies all across the globe have been working on solutions that can bring down the manufacturing cost while retaining the quality of the products.

The leather chemicals industry employs thousands of employees all across the globe. But despite the benefits, the industry is viewed with skeptic's eyes. Leather is obtained from animals that have led slaughtering of animals all across the globe. The constant protest from animal rights activists and the vegans have slowed down the consumption. On the other hand, the emergence of artificial leather has been affecting the growth prospects of the industry. The stringent government rules have further narrowed down the growth as the industry continues to see high demands from all across the globe.
