Market Overview
Herbal medicine has been around for a long while, and they are going to stay irrespective of how
advance the allopathic medical science becomes. People are relying on these medicines because they are truly made of natural ingredients and without the high dose of chemical and additives in them, which result in a great number of side effects. This is the reason why the herbal medicine market is expected to grow faster than ever. More and more studies have proven their great effect on a wide number of diseases and disorders.

Some trained and experienced experts cultivate all the natural ingredients and they are then tested and passed by the quality experts. The primary ingredient of herbal medicine and similar supplement is Coleus Forskohlii. The member of Lamiaceae family is also known as Plectranthus Barbatus & Coleus Barbatus. These hard plants are grown on the dry surfaces of the slopes of lower parts of Himalayas and the plain areas of Northern India. According to some sources, these plants are also found in some parts of Thailand and South East Asia. The fleshy plants produce herbs perennially which smells like camphor & the flowers are similar of mint flowers. Ingredients in such medicine are so very beneficial for health.

Roots are the most important part of these plants and are being used for various medicinal purpose. These roots are a part of history since a long time and are being used in Ayurveda in India and different parts of Asia. These roots not only assist the weight loss but are of great significance in the cardiovascular problems as well. Coleus Forskohlii also increases the production of thyroid hormones and secretion of insulin and hence increases the metabolism in the body.
