

Colorado US Navy Veterans Lung Cancer Advocate Now Urges a Navy Veteran or Person in Colorado with Lung Cancer Because of Asbestos Exposure to Call for Direct Access to the Lawyers at Karst von Oiste-to Talk Compensation

DENVER, COLORADO, USA, November 21, 2019 /EINPresswire.com/ -- The Colorado US Navy Veterans Lung Cancer Advocate's top priority is seeing to it that a Navy Veteran or person with asbestos exposure lung cancer receives the best possible financial compensation. In some instances-people like this could receive hundreds of thousands of dollars in financial compensation. The biggest problem is most Navy Veterans or people with asbestos exposure lung cancer in Colorado do not realize the asbestos trust funds were set up for them too as the Advocate would like to discuss anytime at 800-714-0303.

High-risk work groups for exposure to asbestos in Colorado include US Navy Veterans, workers at Fort Carson, or Cheyenne Mountain, workers at one of Colorado's 12 coal fired power plants, miners, manufacturing workers, public utility workers, plumbers, electricians, auto mechanics, machinists, or construction workers. In most instances, these types of workers were exposed to asbestos in the 1950's, 1960's, 1970's, or 1980's.

<https://USNavyLungCancer.Com>

According to the American Cancer Society for nonsmokers who have been exposed to asbestos in their workplace the risk of lung cancer is five times that of unexposed workers.

<https://www.cdc.gov/cancer/lung/statistics/index.htm>.

States with the highest incidence of lung cancer include Kentucky, West Virginia, Maine, Tennessee, Mississippi, Ohio, Indiana, Louisiana, Arkansas, Missouri, North Carolina, Rhode Island, Alabama, and Delaware. However, there are people with asbestos exposure lung cancer in Colorado.
