

Esports in Education Book Released Ahead of FETC Show in Miami, Florida

New book written for parents and educators interested in esports new role in the education system.

WEST CHESTER, PA, UNITED STATES, January 7, 2020 /EINPresswire.com/ -- Paul Richards announced the release of his book, [Esports in Education](#), ahead of the [Future of Education Technology Conference](#) <https://www.fetc.org/> that will take place next week in Miami, Fla. Richards says he wrote the book to help students, parents, and educators get the most educational value out of esports clubs, tournaments and live video productions

FETC Show Books Available

A Kindle version of the book will be on a free promotion during the conference from Jan. 14 to 18. In addition, educators can pick up free hard copies of the books on the conference show's floor at the PTZ Optics Booth, #4906. The book is also available on Amazon, Apple Books, Barnes & Nobles and most major book outlets.

“

If the education system can embrace the esports, educators can leverage this cultural movement to foster an educational environment that will keep pace with our society.”

Paul William Richards

“If the education system can embrace the esports, educators can leverage this cultural movement to foster an educational environment that will keep pace with our society. “Esports in Education” is a book that is designed to help educators, parents, and students uncover the amazing power esports can bring to education,” says Paul Richards, the book’s author.

Included with this book is a free online Udemy Course (Available here <https://www.udemy.com/course/how-to-start-esports-club>) along with digital content to help

students start their own esports clubs. To [download a copy of the book](#), go to <https://ptzoptics.com/esports>
