PUNE, MAHARASHTRA, INDIA, March 23, 2020 /EINPresswire.com/ -- Antibacterial Coating Market:

Executive Summary

Global Antibacterial Coating Market is valued approximately at USD 2.98 billion in 2018 and is anticipated to grow with a healthy growth rate of more than 12.10% over the forecast period 2019-2026. Antibacterial coatings are the materials used to provide protection from the bacteria present in the environment. This facilitates the object (furniture, medical devices and building and construction materials) to stay fresh and reduces risk of getting infected by any micro-organism. Further, stringent environmental regulations in developed countries have encouraged the end-users to apply antibacterial coatings in schools, hospitals, other architectures. As a result, the adoption of antibacterial coating would increase across various sectors. The growth of the market is primarily driven by rising demand from end-user sectors such as construction, food and beverages and medical and rising demand from the emerging economies. For Instance: such coating is applied to medical devices, furniture, HVAC systems to suppress the growth of the various viruses and bacteria. Since these coatings are safe, non-toxic and biocompatible hence used across healthcare and food & beverage sector. According to the report published by Equentis Capital, healthcare sector in India is growing at a 15 per cent compound annual growth rate (CAGR) and grew from \$45 billion in 2008 to US\$ 78.6 billion in 2012 and is expected to touch \$158.2 billion by 2017. However, time-consuming regulatory approvals for the coatings and high costs of raw materials involved in antibacterial coating are expected to impede the growth of the market over the forecast period.
