This Report covers the emerging player's data, including: competitive situation, sales, revenue and global market share of top manufacturers are Blackbaud (United States), Oracle Corporation (United States), Dell (United States), Epicor Software Corporation (United States), Ellucian (United States), Jenzabar (United States), Foradian Technologies (India), Unit4Software (Netherlands) and Ultra Consultants, Inc., (United States).

"ERP (Enterprise Resource Planning) system is process management that has been helping major organizations to integrate business management with the support of various automated functions. ERP automation system reduces back-office processes and also cuts the total time required for admissions to some extent. The key benefits involved with such system include improved efficiency, cost-effective advantages, and data security. Further, increasing Demand for Video-Based Learning methods to modify primary and secondary Education and need of automated management to carry out business processes in academic institutions is expected to foster the education ERP market in the forecast period."
