

Georgia US Navy Veterans Lung Cancer Advocate Appeals to the Family of a Navy Veteran with Lung Cancer in Georgia Who Had Asbestos Exposure in the Navy to Call the Lawyers at KVO-Compensation Might Exceed \$100,000

ATLANTA, GEORGIA, USA, September 9, 2020 /EINPresswire.com/ -- The Georgia US Navy Veterans Lung Cancer Advocate says, "We are appealing to wife or adult son-daughter of a Navy Veteran who has been diagnosed with lung cancer to please ask him if he had heavy to even extreme exposure to asbestos in the navy. If the answer is yes--please call the lawyers at the law firm of Karst von Oiste-KVO at 800-714-0303 to discuss possible compensation. Compensation for a person like this might exceed \$100,000-even if the person smoked cigarettes. The typical person we are trying to identify is over 60 years old and their asbestos exposure took place prior to 1982.

"The reason we have endorsed the lawyers at the law firm of Karst von Oiste-KVO is because they have been assisting Navy Veterans and people with asbestos exposure lung cancer and mesothelioma for decades and they are responsible for over a billion dollars in compensation results for people like this. If your Navy Veteran husband or dad had asbestos exposure in the navy prior to 1982 and he now has lung cancer-please call the lawyers at the law firm of Karst von Oiste-KVO at 800-714-0303-we think you will be glad you did." www.karstvoniste.com/

The Georgia US Navy Veterans Lung Cancer Advocate offers their free services to US Navy Veterans with lung cancer in Atlanta, Augusta, Columbus, Athens, Macon or anywhere in Georgia.

High-risk work groups for exposure to asbestos in Georgia include US Navy Veterans, workers at Maxwell Air Force Base or Fort Rucker, workers at one of Georgia's 8 power plants, shipyard workers, oil refinery workers, steel mill workers, pulp and paper mill workers, manufacturing workers, industrial workers, public utility workers, plumbers, electricians, auto mechanics, machinists, or miners. Typically, the exposure to asbestos occurred in the 1950's, 1960's, 1970's, or 1980's.

According to the American Cancer Society for nonsmokers who have been exposed to asbestos in their workplace the risk of lung cancer is five times that of unexposed workers. <https://www.cdc.gov/cancer/lung/statistics/index.htm>.

The US Navy Veterans Lung Cancer Advocate says, "If your husband, dad, coworker or neighbor has just been diagnosed with lung cancer and you know they had significant exposure to asbestos in the navy, at a shipyard or while working at a factory, at power plant, public utility, or as a plumber, electrician welder, mechanic or any kind of skilled trades group in any state please have them call us anytime at 800-714-0303. Most people like this never get compensated-even though the asbestos trust funds were set up for them too. We are trying to change this sad fact." <https://USNavyLungCancer.Com>

“

"If your Navy Veteran husband or dad had asbestos exposure in the navy prior to 1982 and he now has lung cancer-please call the lawyers at the law firm of Karst von Oiste at 800-714-0303-anytime."
