WiseGuyReports.com Publish A New Market Research Report on –“ Permanent Rare Earth Magnets Market By Manufacturers,Types,Regions And Applications Research Report Forecast To 2025”.

Summary: -

Permanent magnets are those which retain their magnetic properties even in the absence of an inductive field. Permanent rare earth magnets are the strongest available magnets and are broadly based on two rare earth elements – neodymium and samarium. The rare earth here is a misnomer and these elements are abundantly available in the earth crust. However, due to difficulty and high-cost involvement in refining and purification process, these metals are very costlier limiting the application areas for permanent rare earth magnets.
