By application, configuration management segment is expected to have a lucrative growth during the forecast period. This management application implements the database of detailed elements of the organization which are used in the management of its IT services. It establishes an authentic repository of information about the IT components and provides an accurate configuration to enable quick decision making.

By geography, North America is probably going to have an immense interest during the forecast

period owing to its advancements in terms of technologies and infrastructures. It considers cybersecurity as a significant component of administration departments' Information Technology (IT) modernization efforts. The US is expected to witness growth, owing to the presence of several vendors that offer the best breach and attack simulation solutions.

Some of the key players in global automated breach and attack simulation market include AttackIQ, Qualys, Cymulate, Rapid7, SafeBreach, DXC Technology, XM Cyber, FireEye, Cronus Cyber Technologies, Skybox Security, Threatcare, Firemon, NopSec, and Mazebolt, Scythe.

Offerings Covered:
• Services
• Platforms/Tools
• Software

Applications Covered:
• Patch Management
• Threat Intelligence
• Configuration Management
• Team Assessment
• Other Applications

End Users Covered:
• Managed Service Providers
• Enterprise
• Data-Centers

Regions Covered:
• North America
• Europe
• Asia Pacific
• South America
• Middle East & Africa

What our report offers:
- Market share assessments for the regional and country-level segments
- Strategic recommendations for the new entrants
- Market forecasts for a minimum of 9 years of all the mentioned segments, sub-segments and the regional markets
- Market Trends (Drivers, Constraints, Opportunities, Threats, Challenges, Investment

Opportunities, and recommendations)
- Strategic analysis: Drivers and Constraints, Product/Technology Analysis, Porter's five forces analysis, SWOT analysis etc.
- Strategic recommendations in key business segments based on the market estimations
- Competitive landscaping mapping the key common trends
- Company profiling with detailed strategies, financials, and recent developments
- Supply chain trends mapping the latest technological advancements

Table of Content

10.12 Firemon
10.13 NopSec
10.14 Mazebolt
10.15 Scythe
