

CryptoCoin.PRO Now Supports \$BAND Purchase with Credit Cards and Bank Transfer in Over 180 Countries'

\$BAND is now available to buy in over 180 countries via the fiat on/off-ramp processor CryptoCoin.Pro

EUROPE, October 16, 2020 /EINPresswire.com/ -- CryptoCoin.Pro, a global fiat on/off-ramp supporting 180+ countries, has extended support for Band Protocol (BAND) to be directly purchased with credit cards or bank transfer. The CryptoCoin platform is fully licensed in Estonia for cryptocurrency operations under EU legislation and has bank approved KYC, AML and CDD procedures.

"Band Protocol is definitely the oracle

service that smart contract developers need for enhancing Dapps and DeFi ecosystems by bridging reliable off-chain data sources. The same way Band Protocol is bringing external data into the blockchain, at CryptoCoin.Pro we are facilitating crypto mass adoption by offering an

easy way in and out for FIAT<>Crypto in a 100% regulated and safe environment.

Band Protocol is excited to have the support of CryptoCoin.Pro, a global fiat on/off-ramp processor. BAND, can now be placed into the hands of people in over 180+ countries."

Soravis Srinawakoon, CEO & Co-Founder By creating this partnership, we join our shared vision for the mass adoption of blockchain technology by bringing the ability for anyone to secure the oracle network using the BAND token."

Sergiu Draganus, Founder of CryptoCoin.Pro

"Band Protocol is excited to have the support of CryptoCoin.Pro, a global fiat on/off-ramp processor. BAND, which is used to secure the decentralized oracle network that bridges off-chain information reliably to DApps, can now be placed into the hands of people in over 180+ countries."

Soravis Srinawakoon, CEO & Co-Founder

The integration makes the conversion of over 140 currencies into BAND and vice versa a simple, safe and intuitive process. The collaboration with CryptoCoin is part of our effort to make BAND accessible to the hands of everyone, forwarding our mission of creating a truly decentralized oracle network secured and powered by anyone in the world.

About CryptoCoin.Pro

CryptoCoin.Pro is a fiat on/off ramp service provider for blockchain projects, exchanges and DApps. Our FIAT Payment solution allows fast and easy access to crypto in the most secure way, bridging the gap between traditional payment methods and crypto in over 180 countries. Projects connect to CryptoCoin.Pro via our full API integration or flexible UX/UI checkout process.

About Band Protocol

Band Protocol is a cross-chain data oracle platform that aggregates and connects real-world data and APIs to smart contracts. Blockchains are great at immutable storage and deterministic, verifiable computations — however, they cannot securely access data available outside the blockchain networks. Band Protocol enables smart contract applications such as DeFi, prediction markets, and games to be built on-chain without relying on the single point of failure of a centralized oracle. Band Protocol is backed by a strong network of stakeholders including Sequoia Capital, one of the top venture capital firms in the world, and the leading cryptocurrency exchange, Binance.
