

Arkansas US Navy Veterans Lung Cancer Advocate Recommends the Lawyers at Karst von Oiste to Ensure a Navy Veteran with Lung Cancer Gets Compensated-If He had Heavy Asbestos Exposure in the Navy

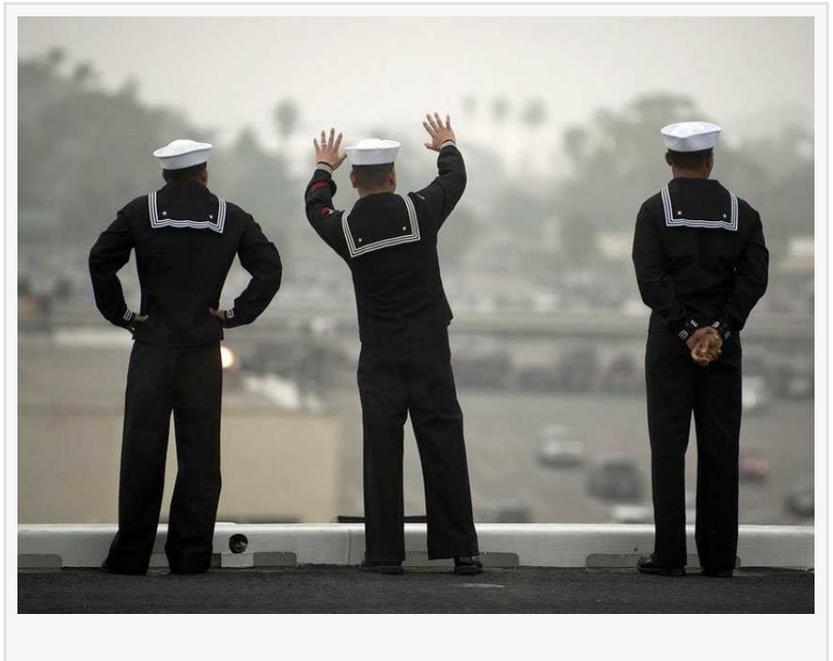

LITTLE ROCK, ARKANSAS, USA,
December 1, 2020 /EINPresswire.com/
-- The Arkansas US Navy Veterans Lung Cancer Advocate has endorsed and they recommend the attorneys at the law firm of Karst von Oiste to assist a Navy Veteran who has lung cancer-with compensation if decades ago he had heavy exposure to asbestos on a navy ship, submarine or at a shipyard. Most Navy Veterans who had significant exposure to asbestos decades ago and who now have lung cancer are typically not aware the \$30 billion dollar-asbestos trust funds were set up for them too. Financial compensation for a person like this might exceed \$100,000 as the lawyers at Karst von Oiste are always happy to discuss at 800-714-0303. www.karstvoniste.com/

The US Navy Veterans Lung Cancer Advocate is now offering to assist a Navy Veteran who now has lung cancer and who had significant exposure to asbestos in the navy to get possible VA Benefits for their illness. The Advocate will assist with a Navy Veteran with lung cancer with their initial VA claims submission-and there is no charge for this service. For more information, a Navy Veteran with lung cancer-who also had heavy exposure to asbestos in the navy prior to 1982 or their family are welcome to call the Advocate anytime at 800-714-0303.

The Arkansas US Navy Veterans Mesothelioma Advocate is offering to assist people with asbestos exposure lung cancer or mesothelioma in Little Rock, Fort Smith, Fayetteville, Springdale, Jonesboro, Pine Bluff or anywhere in Arkansas.
<https://Arkansas.USNavyLungCancer.Com>

Individuals in the state of Arkansas could have been exposed to asbestos while working at a power plant, at an industrial facility, at a steel mill, at an automobile manufacturing facility, at a chemical plant, as a plumber, a boiler technician, as an auto repairman, as an electrician, or in the construction industry. Additionally, we help veterans exposed to asbestos while serving in the US Navy. In most cases, the exposure to asbestos

caused mesothelioma at one of these types of workplaces and the exposure took place in the 1950's, 1960's, 1970's, or 1980's. Asbestos exposure lung cancer or mesothelioma typically takes three to five decades to appear.
