

iNube® and Claim Genius® Launch Integrated AI & Video Claims Management Solution

Making real-time claim assessment possible

BANGALORE, INDIA, January 13, 2021 /EINPresswire.com/ -- iNube Solutions® (www.inubesolutions.com), a market leader in providing comprehensive SaaS platform for P&C industry and Claim Genius® (www.claimgenius.com) a leading AI InsureTech company, today announced the signing of a strategic agreement for P&C Insurance services enterprises. As part of this agreement, iNube will be bringing Claim Genius's real time damage estimates for passenger vehicles into its suite of auto insurance claims management solution. This innovative real time AI imaging powered automated Claims Management solution with Live Video Streaming will have an integrated workflow solution to drive better efficiencies, speed, accuracy and productivity improvements for the automobile insurance services sector. Once the service is implemented, clients will be able to get an instant estimate for repair of the damaged vehicle by utilizing the initial photographs or videos of the accident vehicles in real-time.

iNube offers a futuristic technology-enabled solution that embeds Artificial Intelligence (AI) capabilities in its end-to-end auto insurance claims management solution. The one-stop-shop solution comprises of a new age digital platform for auto claims management 'ClaimsLive Auto', a multi-purpose, pluggable, ready-to-use 'Live Video Streaming Platform' and exclusive feature-rich 'Enterprise Mobile Apps'. Each of the products in this power packed combination can be either leveraged independently or jointly and aims to empower insurance companies to provide the best-in-class services to their customers with smarter auto claims processing and quick turnaround time (TAT) of less than few minutes.

"This is new step forward in providing the comprehensive claims management platform with real-time AI claim assessments which enables a customer to get an overall repair estimate within

The screenshot displays the Claim Genius interface for a 2017 Volkswagen Tiguan. The top navigation bar includes fields for Claim ID (CH04353C), Claim Date (1/15/2020), Claim State (CC), Odometer (98887), Vehicle Make (MH12AB1212), Repair Cost (\$95661.00), Compulsory Excess (1000), Airbag Status (Deployed), and Damage (Damage). A table on the right lists damaged parts with their prices and status:

Part	Price	Action	Review
Fender Front Left	\$37749.00	replace	>
Hood	\$27889.00	replace	>
Bumper	\$277248.00	replace	>
Headlight Left	\$50554.00	replace	>
Windshield	\$35877.00	replace	>
Airbag	\$22342.00	replace	>
Door Front Left	\$0	none	>
Door Front Right	\$0	none	>

Claim Genius provides near instant AI analysis of vehicle damage

a matter of 2 minutes resulting into significant ROI. With this partnership Claim Genius will start giving assessments on Videos in addition to the photos which is a big step forward”, said Raj Pofale, founder and CEO of Claim Genius. “Claim Genius is becoming a part of the claims ecosystem by its integration with platforms like iNube. With our real-time computer vision algorithms, we are innovating the automobile claims space and making the touchless claims a reality. Claim Genius is leading the charge of this transformation through our advanced product capabilities and growing list of technology and delivery partnerships across the entire claim’s ecosystem. Today Claim Genius is working with large customers in 7 different geographies and becoming a global platform, this partnership will further enable us to scale this vision.”

Commenting on the partnership, Vinodkumar A Iyer, Chief Executive Officer, iNube Software Solutions Pvt. Ltd. said “We are pleased to partner with Claim Genius. We firmly believe that this partnership will greatly benefit insurance companies to transform auto claims processes with faster and accurate claim settlements. iNube’s ClaimsLive Auto Platform with Live Video Streaming empowered by Claim Genius’s AI engine serves as a powerful, end-to-end solution for auto claims management. It demonstrates our commitment in delivering the best-in-class technology solutions to the global automobile insurance industry with a key focus on innovation to help accelerate the pace of claims automation”
