

Westech Industrial Ltd. and Total Combustion Inc. enter into exclusive distribution agreement for Canadian marketplace

Westech Industrial Ltd. and TCI Combustion Inc are excited to announce that Westech is now the exclusive distributor for TCI's clean combustion products.

CALGARY, ALBERTA, CANADA, January 26, 2021 /EINPresswire.com/ -- Westech Industrial Ltd. ("Westech") and Total Combustion Inc. ("TCI") are excited to announce that Westech Industrial is now the exclusive distributor for TCI's [clean combustion products](#) for fixed installations and rental services in the Canadian industrial market.

Westech and TCI's business relationship dates back several decades when the two companies worked together in product development on the current generation of clean combustion incinerators, built and designed by TCI, but utilize Westech designed flame arrestors. Westech and TCI are both Alberta based, family-owned businesses with long histories of innovation in the industrial market by focusing on solving Canadian industrial problems with made in Canada solutions and support.

TCI 4800 Incinerator & Enclosed Combustor for Waste Gas

"We are excited to come together to bring this technology to our customers as they face unprecedented scrutiny on their carbon footprints across all industries, but in particular oil & gas. Westech has been the go-to source for emission reduction technologies in the biogas sector in Canada for decades and we are excited to provide these solutions to our customers in the energy sector facing these same challenges." said Jeff Scott, General Manager of Westech.

"By partnering with Westech we can achieve a greater market reach while focusing our resources on developing new technologies to further enhance the environmental solutions we are providing the marketplace. We're proud to be supplying the Canadian energy industry with methane reduction technologies that allow it to continue to compete on a global scale." said Julie Wiseman, VP Operations of TCI.

About TCI

TCI products are manufactured in Red Deer, Alberta – with rental fleets located across North America, but primarily based in Central Alberta, Grande Prairie, Ontario and Colorado, USA.

Website: <https://www.tciburners.com/>

TCI has a 20-year track record as a leader in methane reduction technologies across North American. TCI clean combustion units achieve a 99.8% destruction efficiency and are a recognized environmentally friendly alternative to venting and flaring.

About Westech.

For over fifty years Westech Industrial has been the leading provider of innovative analytical equipment, process control and instrumentation solutions to a wide range of industries to help make their operations more efficient, productive and a safer place to work. Our expertise and product portfolio includes; analytical measurement, biogas solutions, instrumentation, fire and gas solutions, instrument and process valves, variable frequency drives and power solutions.
