

Arizona US Navy Veterans Lung Cancer Advocate Appeals to the Family of a US Navy Veteran with Lung Cancer to Call Attorney Erik Karst of Karst von Oiste-If He Had Navy Asbestos Exposure-Compensation Might Exceed \$100,000

PHOENIX , ARIZONA, USA, April 9, 2021

/EINPresswire.com/ -- According to the Arizona US Navy Veterans Lung Cancer Advocate, "We are appealing to the wife or adult son-daughter of a Navy Veteran or person in Arizona with recently diagnosed with lung cancer to call attorney Erik Karst of the law firm of Karst von Oiste at 800-714-0303-if while serving in the navy or while working at a job they had significant exposure to asbestos prior to 1982. Financial compensation for a person like this might exceed \$100,000 and it does not matter if they smoked cigarettes. Most people like this are unaware the \$30 billion dollar-asbestos trust funds were set up for them too.

"If the person we have described sounds like a relative or friend-please ask their wife or immediate family to call attorney Erik Karst of the law firm of Karst von Oiste at 800-714-0303 to discuss potential financial compensation. Most people who had heavy exposure to asbestos in the navy or at work decades ago-and then develop lung cancer-never get compensated-even though they should as Erik Karst of the law firm of Karst von Oiste is always happy to discuss."

www.karstvoniste.com/

The US Navy Veterans Lung Cancer Advocate is offering to assist people with asbestos exposure lung cancer in Phoenix, Tucson, Mesa, Chandler, Glendale, Gilbert, Tempe. Peoria, Prescott or anywhere in Arizona. www.karstvoniste.com/

Individuals in the state of Arizona could have been exposed to asbestos while working at a power plant, at an industrial facility, at a steel mill, at an automobile manufacturing facility, at a chemical plant, as a plumber, a boiler technician, as an auto repairman, as an electrician, or in the construction industry. In most cases, the exposure to asbestos caused mesothelioma at one of these types of workplaces and the exposure took place in the 1950's, 1960's, 1970's, or 1980's. Mesothelioma or asbestos exposure lung cancer typically takes three to five decades to appear.

"People who had asbestos exposure in the navy or at work decades ago-and then develop lung cancer-never get compensated-even though they should as attorney Erik Karst of Karst von Oiste will explain."

*Arizona US Navy Veterans
Lung Cancer Advocate*

The US Navy Veterans Lung Cancer Advocate says, "If your husband, dad, coworker or neighbor has just been diagnosed with lung cancer and you know they had significant exposure to asbestos in the navy, at a shipyard or while working at a factory, at power plant, public utility, or as a plumber, electrician welder, mechanic or any kind of skilled trades group in any state please have them call us anytime at 800-714-0303. Most people like this never get compensated-even though the asbestos trust funds were set up for them too. We are trying to change this sad fact." <https://USNavyLungCancer.Com>

According to the American Cancer Society for nonsmokers who have been exposed to asbestos in their workplace the risk of lung cancer is five times that of unexposed workers. <https://www.cdc.gov/cancer/lung/statistics/index.htm>.

States with the highest incidence of lung cancer include Kentucky, West Virginia, Maine, Tennessee, Mississippi, Ohio, Indiana, Louisiana, Arkansas, Missouri, North Carolina, Rhode Island, Alabama, and Delaware. However, there are people with asbestos exposure lung cancer in Arizona. www.karstvoniste.com/

For more information about asbestos exposure lung cancer and mesothelioma please visit the CDC's website on these topics:
