Scheduled to open Memorial Day 2021, WhoaZone at Atwood Lake Park and WhoaZone at Pleasant Hill Lake Park are part of the fastest-growing trends of active, on-water entertainment and recreational activity at public facilities across the USA. WhoaZone parks provide family fun and offer hourly sessions, all-day passes, group outings, birthday parties and special events. You can learn more by visiting <https://whoa.zone>. Managed by Empire Recreation Management (ERM) the park is a joint venture with the Muskingum Watershed Conservancy District

“WhoaZone is excited to be entering the Ohio market”, says Jen Rice, General Manager of ERM,

“and we are confident this park will be as popular as our other parks in MI, TX, and IN. People love these parks and joining with the MWCD means we have found a new and exciting outdoor activity for kids and adults to enjoy!”

Both parks are conveniently located near (4) major metropolitan markets --- Cleveland, Columbus, and Toledo, Ohio and Pittsburgh, Pennsylvania -- areas already recognized as nature-based summer activity areas, and the WhoaZone will enhance the destination’s “wow factor” and draw new users to experience the parks and lakes and marinas that are also in the process of renovation.

“We are excited to be partnering with Empire Recreation Management and to be offering our guests this fun, over-the-top water-front activity,” says Adria Bergeron, Director of Marketing & Communications for MWCD, “and we believe that these additions fulfil a demand that is requested by our guests, and surrounding communities. This will generate both excitement for campers and the district as a whole”. She adds, “We are eager to get the summer started.”

watershed in Ohio. Since their construction, the 16 reservoirs and dams in the MWCD region have been credited for saving over \$7 billion worth of potential property damage from flooding, according to the federal government, as well as providing popular recreational opportunities that bolster the region's economy. A significant portion of these reservoirs are managed by the MWCD and the dams are managed for flood-risk management by the federal U.S. Army Corps of Engineers (USACE).
