FREDERICKSBURG, VIRGINIA, UNITED STATES, February 26, 2021 /EINPresswire.com/ -- Representatives with [Organic Cotton Mart](#) announced today that it is now offering wholesale cotton produce bags to farms and stores.

"We are very excited about this," said James Emmanuel, managing partner and spokesperson for Organic Cotton Mart, a company that sells only 100 percent certified organic cotton products. "Organic Cotton Mart now offers reusable cotton produce bags to other farms and stores who are willing to purchase it at a wholesale price."

Emmanuel explained that for its wholesalers, the company provides a discounted rate as well as free shipping US-wide. Its cotton bags are made from 100 percent certified organic cotton, they are reusable, washable, foldable, and made from natural cotton without any dye or bleach.

The company spokesman reiterated that Organic Cotton Mart's products are made of 100 percent GOTS (<https://global-standard.org/>) certified organic cotton.

The Global Organic Textile Standard (GOTS) is the worldwide leading textile processing standard for organic fibers, including ecological and social criteria, backed up by independent certification of the entire textile supply chain.

According to GOTS, "The aim of the standard is to define worldwide recognized requirements that ensure organic status of textiles, from harvesting of the raw materials, through environmentally and socially responsible manufacturing up to labeling in order to provide a credible assurance to the end consumer. Textile processors and manufacturers are enabled to export their organic fabrics and garments with one certification accepted in all major markets."
