An industry leader in POS solutions has unveiled a breakthrough system that makes it easier than ever before to manage orders.

ROSEVILLE, CALIFORNIA, UNITED STATES, April 7, 2021

/EINPresswire.com/ -- Representatives with [Adora POS](#) announced today that its [Kitchen Display System](#) now makes it easy for restaurants to manage orders.

“Prioritizing orders can make all the difference,” said Kevin Wendland, President, and spokesperson for Adora POS. “Adora’s kitchen display system automatically prioritizes orders based on order type and will put rush orders at the top of the Make List.”

Wendland explained that its kitchen display system lets restaurants see items that have been updated or deleted, as well items that are paid or unpaid.

“Our visual indicators mean you’ll always be on top of your business,” Wendland said. “In addition, you can create a Make Line, Cut and Wrap, and see production time reporting.”

Wendland went on to point out that it is also offering three customizable subscription plans for its POS for restaurants. They include: Core POS, starting at \$59 per month; Core POS Online, starting at \$74 per month, and The Kitchen Sink with flexible pricing.

Those interested in the packages can visit Adora POS’ [subscription plans page](#) on its website for in-depth details and breakdown of each plan.
