

Health Supply Wholesalers Find Unique Ways To Support Local Businesses To Return From Pandemic

Working Directly With the Manufacturer's Importing Team Is How We Provide Below Wholesale PPE Prices.

LOS ANGELES, CA, 90220, April 21, 2021 /EINPresswire.com/ -- Throughout the COVID19 pandemic demand for Personal Protective Equipment (PPE) has consistently outstripped supply. With unprecedented demand globally for items such as nitrile, latex, vinyl gloves, face shields and hand sanitizers many businesses have struggled to affordably source the PPE necessary to make their workplaces [COVID secure](#) for their staff and customers. One California-based business is striving to ease this problem for local business owners, by setting up a connected supply chain that allows local business owners to quickly and affordably get hold of PPE from a network of factories across America.

“

Wait for the dust to settle, because it creates a better plan.”

Franklin Lujan

[Health Supply Wholesalers](#) saw the problem that local business owners in California were facing. As business owners prepare to reopen, they are under immense pressure to return their operations to as normal as possible, whilst also ensuring that they are acting in line with ever-changing government COVID guidelines, and

keeping their facilities clean, safe and COVID free. This is challenging for small business owners, who know what equipment they need to protect their personnel and visitors, but who have struggled to consistently source it at affordable prices.

Small businesses find themselves wasting valuable time trying to find different suppliers, calling

round to check stock levels, attempting to place orders, sometimes having to place multiple orders with multiple suppliers to get everything they need. This is frustrating and inefficient and adds a burden to a time in which it is already particularly challenging to run a business. Furthermore, due to the explosion in demand, many suppliers' prices for PPE have skyrocketed, adding additional cost that erodes the bottom line in a way that local businesses can ill afford.

"Health Supply Wholesalers are in a strong position to react to the ever-shifting business landscape that the COVID19 pandemic has presented", said Franklin Lujan, Co-Founder. "Due to our relationships PPE factories across the USA, and our established infrastructure, we are uniquely positioned to support business owners and connect them to a supply chain they desperately need. We believe in maintaining Government Wholesale prices for local businesses and communities and are delighted to be able to use our [business expertise](#) to support our community through the pandemic."

Local businesses can benefit from working with Health Supply Wholesalers as they have kept prices below wholesale, to ensure that PPE is supplied at fair cost to the business owner. Health Supply Wholesalers also take the stress out of sourcing PPE as they do the heavy lifting, and through utilizing well-established relationships with Mid-West and East Coast facilities they are equipped for unexpected demand and urgent requirement for immediate pickup of supplies.

About Health Supply Wholesalers: On a mission to alleviate Personal Protective Equipment (PPE) procurement challenges, Health Supply Wholesalers was established in Riverside, California in 2020. They have established business partnerships with a network of personal protective safety equipment factories that have placed facilities all over North America. Throughout 2020 they provided PPE to local businesses and government agencies, including several bulk orders with the County of Riverside, CA. For more information, visit

The image is a promotional graphic for the Health Supply Wholesalers (HSW) mobile app. At the top, a blue-tinted map of the United States is overlaid with several white delivery trucks, each bearing the HSW logo. Below the map, the text "BELOW WHOLESALE PPE PRICES" is prominently displayed in white, with the tagline "Working Directly With The Manufacturer Importing Team" underneath. The background of the top section features a collage of people wearing face masks. Below this, a horizontal strip of three photos shows HSW staff in various settings: a woman in a mask and apron, a woman in a mask and apron, and a man in a mask and apron. The central part of the graphic is a large blue rectangle with the text "BELOW WHOLESALE PPE" in white, followed by "WE ARE RESPONSIVE, RESPONSIBLE AND AFFORDABLE" in smaller white text. To the right of this rectangle is a smartphone displaying the HSW app interface, which includes the HSW logo, a grid of icons for different services, and a "GET IT ON Google Play" and "Download on the App Store" banner at the bottom. The bottom of the graphic features another horizontal strip of three photos: a woman in a mask and apron, a woman in a mask and apron, and a woman in a mask and apron holding a sign that says "WELCOME OPEN".
