Mattress Suggestion to compliment Your KCE Bed:

There are many mattresses that will function properly with your KCE Bed and embrace you into a good night's sleep! We understand that your mattress selection depends on personal preference which is why we researched the types of mattresses that will function with your KCE Bed and leave the selection and purchase up to you.

Mattresses made using high-quality memory foam or latex and that have a few layers of memory foam or latex are suggestions. These mattresses should also have a base layer that does not exceed 6 inches. This base layer allows for the mattress to bend and embrace you with the KCE Bed as you adjust the bed to your comfort position. A mattress that will not function optimally with your KCE Bed is made using Hybrid, Coiled, Spring, Water, or Air.
