

Global Airport Technologies Market Trends, Strategies, And Opportunities In The Airport Technologies Market 2021-2030

The Business Research Company's Airport Technologies Global Market Report 2021: COVID-19 Growth And Change To 2030

LONDON, GREATER LONDON, UK, July 27, 2021 /EINPresswire.com/ -- According to the new market research report 'Airport Technologies Global Market Report 2021: COVID-19 Growth And Change To 2030' published by The Business Research Company, the [global airport technologies market](https://www.thebusinessresearchcompany.com/sample.aspx?id=2475&type=smp) is expected to grow from \$11.38 billion in 2020 to \$12.09 billion in 2021 at a compound annual growth rate (CAGR) of 6.2%. The growth is mainly due to the companies resuming their operations and adapting to the new normal while recovering from the COVID-19 impact, which had earlier led to restrictive containment measures involving social distancing, remote working, and the closure of commercial activities that resulted in operational challenges. The airport technologies market is expected to reach \$14.3 billion in 2025 at a CAGR of 4.3%. Rise in illegal immigration is a key driver of the airport technologies market.

5%

Expected Market Size By 2023

\$13 Billion

The implementation of automated baggage handling systems is an emerging trend in the airport technologies market. Automated baggage handling systems involve the use of small robotic vehicles that carry baggage from the conveyor belt, through the security system and finally to the respective aircraft carriers. The use of this technology is expected to reduce the number of bags lost at airports.
